

About Health Net

A premier, California-based health care insurance provider, Health Net's mission is to transform the health of communities, one person at a time.

A California Company

Headquartered in Woodland Hills, Health Net, a Centene company, believes every Californian deserves affordable coverage and access to high quality care. As a local operator and California-concentrated managed care company, Health Net deeply understands the state's regulatory environment and works collaboratively with providers and policymakers to keep a pulse on the constantly evolving health care industry.

About Health Net

Health Net's Value Proposition

We believe every person deserves a safety net for their health — regardless of age, income, employment status or current state of health. At Health Net this means:

- Offering a health plan for **every stage of life**
- Designing competitive health plans that are **affordable** — and are often among the **lowest cost**
- Serving as **California leaders** in government sponsored health plans, with **expertise** providing coverage for both Medi-Cal and Medicare members
- Delivering **high quality health services** — demonstrated by ratings from third parties who regularly assess our plans
- Supporting the communities we serve by working to better **inform, educate** and **improve your healthcare**

Health Net in Your Community

An active and integrated member of the communities where we operate — Health Net is steadfast in its commitment to serve our members throughout the state. We've partnered extensively with community-based organizations, nonprofits and government agencies to tackle regional and statewide health care challenges and support solutions to help all Californians be more healthy at every stage of life.

THE PAST THREE YEARS (2017–2019) — BY THE NUMBERS:

186 grants awarded to increase health coverage enrollment, retention and navigation services, health care workforce development, the collection of encounter data and more

451 community-based events managed by Health Net to raise awareness in youth mental health and social isolation, address the lasting effects of childhood trauma and more

1,400 hours of Health Net employees volunteering their time in community-based organizations throughout the state

\$25.5 M invested to benefit underserved communities throughout the state, improve upon care delivery and further develop California's health care infrastructure
