About CalViva Health

Who We Are

CalViva Health is the local health initiative health plan for the Medi-Cal program in Fresno, Kings and Madera counties. CalViva Health partners with Health Net to serve Medi-Cal beneficiaries in these counties.

Mission Statement

To provide access to quality healthcare and promote the health and well being off the communities we serve in partnership with healthcare providers and our community partners. CalViva Health is committed to protecting local healthcare with an organized system to care for Medi-Cal beneficiaries within our region.

About CalViva Health

Our Role

- To provide oversight of delegated and administrative functions
- To ensure standards and regulations are met
- To review periodic reports
- To hold monthly management oversight meeting
- Regulatory agency liaison
- To provide a forum for member participation and engagement and support the community

CalViva Health contracts Health Net to provide administrative and health care services to Medi-Cal members on CalViva Health's behalf.

Important to Note

If you are a provider contracted with CalViva Health through a delegated medical group then you must follow the medical group's policies and procedures for claims, authorizations, appeals, credentialing, referring members for case management, etc.

If you have questions, please reach out to your medical group provider contact.

Medical group is used for PPG and/or IPA

- PPG= Participating Provider Group
- IPA= Independent Physician Association

Welcome

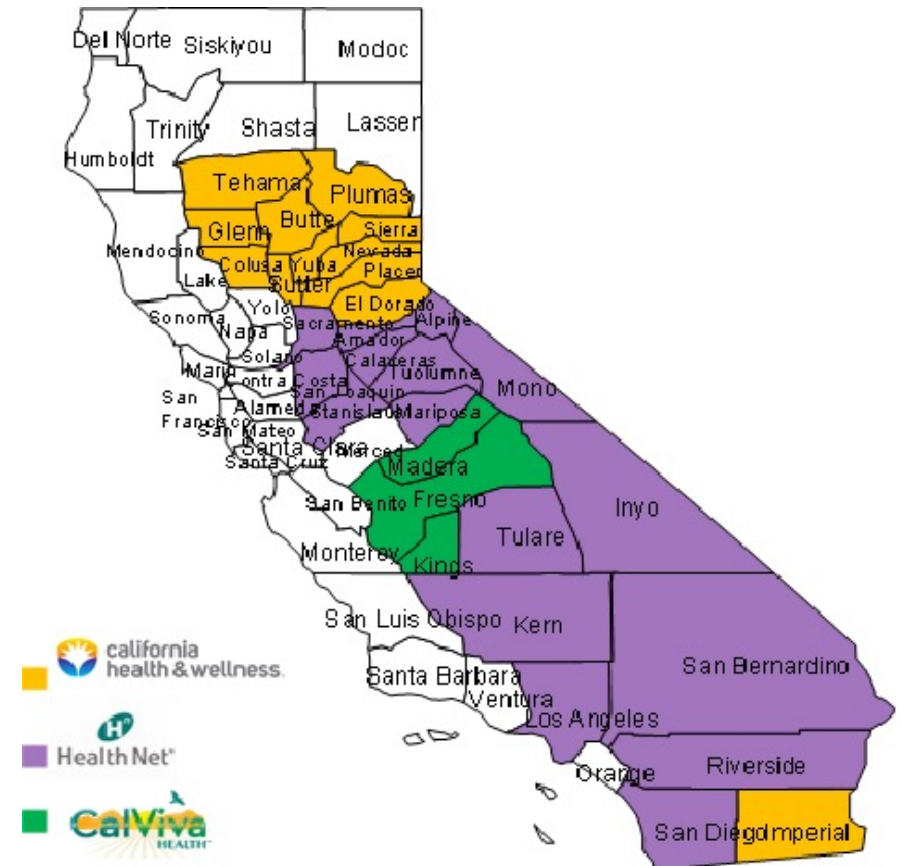

We are pleased to provide this orientation that includes tools and resources to assist you and your staff in caring for our members.

Provider Responsibilities

Staying Healthy Assessments

- The Department of Health Care Services (DHCS) requires all new Medi-Cal members complete their comprehensive Initial Health Assessments with their primary care provider within 120 days from plan enrollment. The Initial Health Assessment (IHA) can be completed by a primary care physician (PCP), nurse practitioner, certified nurse midwife, or physician assistant.
- The Initial Health Assessment must include completion of the age-appropriate Staying Healthy Assessment (SHA) form or Department of Health Care Services (DHCS) approved Individual Health Education Behavioral Assessment (IHEBA).
- The IHA is required by DHCS for all newly enrolled patients, including those with disabilities. Providers must follow DHCS requirements for completing the IHA, in accordance with DHCS Plan Letters.
- All forms must be placed in the member's medical record file
- For any members with mild to moderate substance use disorders, the provider should also complete an SABIRT (Alcohol and Drug Screening, Assessment, Brief Interventions and Referral to Treatment) to members ages 11 years and older, including pregnant women to address specific conditions and future treatment recommendations.
- All forms are available to download on DHCS website at the following link

<https://www.dhcs.ca.gov/formsandpubs/forms/Pages/StayingHealthy.aspx>

PCP Transfers

Members have the right to change their primary care providers (PCP) every 30 days. If a PCP is affiliated with a participating provider group (PPG), then the PCP should follow the PPG policies as well.

Members can request PCP change prior to their visit by calling **Member Services** at (888) 893-1569

Or the provider can have the member complete a **PCP Change Request Form** to have the member re-assigned to a practice.

If faxed on Date of Service:

- Requires Member Signature
- Requires Member ID#
- Member must answer NO to all questions regarding prior services rendered
- Takes up to six days to update in the Health Net system
- If member has received services by another provider within the same month, then the PCP change may not become effective until the following month.
- Fax number is listed at the bottom of the form

Access to Care and Availability Standards

Our appointment accessibility and provider availability policies, procedures and guidelines for providers and health care facilities providing primary care, specialty care (including seldom used or unusual specialty services), behavioral health care, urgent care, ancillary services, and emergency care, are in accordance with applicable federal and state regulations, contractual requirements and accreditation standards.

CalViva Health and its participating providers are required to demonstrate that, throughout the geographic regions of CalViva Health service area, a comprehensive range of primary, specialty, institutional, and ancillary care services are readily available and accessible within reasonable timeframes. Additionally, there is a requirement to demonstrate that members have access to non-discriminatory and appropriate covered health care services within reasonable period of time appropriate for the nature of the member's condition and consistent with good professional practice. This includes, but is not limited to, provider availability, waiting time and appointment access with established time-elapsed standards.

HEDIS Incentive Program

Health Net offers incentive payments to qualifying primary care providers in recognition for their efforts to improve quality of care for Medi-Cal members

- PCPs are awarded for care gaps closed in various HEDIS measures
- FQHC/RHC/IHS providers are awarded for meeting the minimum performance level (MPL) and having a certain % of improvement (1% for providers meeting MPL and 2% for providers below MPL) in various HEDIS measures.
- All 3 CalViva Health counties with active W-9 on file
- Other eligibility requirements exist!

A useful tool to maximize your HEDIS incentive is Cozeva Portal

Providers have support in the following areas when they sign up on Cozeva Portal

- Track measure rates using the Registries scorecard
- View patient-level detail on gaps in care
- Track estimated/potential incentive payments
- Print face sheets to facilitate pre-visit planning
- Close data gaps instantly by uploading records
- More frequent incentives (quarterly vs. semiannual)

More timely and secure e-payments through PayPalHyperwallet®

Utilization Management

Utilization Management

Our utilization management (UM) program is designed to ensure that members receive timely, medically necessary and cost-effective health care services at the correct level of care. The scope of the program includes all members and network providers.

Elements of UM process are as follows

- Prior authorization
- Concurrent review
- Discharge planning
- Care management
- Retrospective review

Prior Authorizations

Primary care physicians (PCPs) and specialists should follow the guidelines below when completing the Inpatient California Medi-Cal Prior Authorization Form or the Outpatient California Medi-Cal Prior Authorization Form to request prior authorization of services.

Providers are required to complete all fields on the form as follows

- If the number of units or visits is not indicated in the Professional field, only one visit is authorized by Health Net. That visit must take place within 60 days of the order date. If more than one consultation is required, another request must be submitted to Health Net for review
- Designate the type of request (urgent or elective)
- Designate service requested to determine prior authorization requirements
- ICD-10 codes and CPT codes and descriptions are required fields
- Providers must attach all pertinent medical information for the request to be reviewed for medical necessity

All Prior Authorization Request Forms can be located on Provider Library

<https://providerlibrary.healthnetcalifornia.com/medi-cal/provider-manual/prior-authorizations/request-prior-authorization-form.html>

Case Management

The Complex Case Management program identifies members as being at high risk for hospitalizations or poor outcomes and who have barriers to their health care.

Trained nurse care managers, in collaboration with a multidisciplinary team, provide coordination, education and support to the member in achieving optimal health, enhancing quality of life and accessing appropriate services. Once a member is selected to participate in the program, a case manager contacts the member's provider to coordinate care.

- Providers may refer members for complex case management and complete the Care Management Referral Form ([CalViva PDF](#))
- Members may self-refer to the program by calling the member services telephone number on the back of their identification (ID) card.

Continuity of Care

Under Health Net's continuity of care (COC) policy, there are two types of COC, non-clinical and clinical COC.

Medi-Cal members, their authorized representatives on file with Medi-Cal or their providers may initiate a request for continuity of care directly from Health Net. Health Net accepts verbal or written COC requests. Refer to the Member Services Department ([Medi-Cal](#)) for assistance

Health Net completes continuity of care requests within:

- 30 calendar days from the date of receipt
- 15 calendar days if the member's medical condition requires more immediate attention, or
- Three calendar days if there is risk of harm to the member. Risk of harm is defined as an imminent and serious threat to the member's health.

Upon completion of the COC review, the provider and the member will be notified of decision within seven calendar days. A request for COC is complete when:

- The member is informed of their right to continued access.
- Health Net and the non-participating FFS provider are unable to agree to a compensation rate.
- Health Net has documented quality-of-care issues, or
- Health Net makes a good faith effort to contact the provider and the provider has not responded to Health Net within 30 calendar days of Health Net's effort to contact the provider.
