CalAIM Resources for Providers

What is CalAIM?

CalAIM (California Advancing and Innovating Medi-Cal) is a multi-year initiative by the California Department of Health Care Services (DHCS) to improve the quality of life and health outcomes of Medi-Cal members through broad delivery system, program and payment reform across the Medi-Cal program.

This resource page has been developed to provide tools and resources to help providers easily navigate the CalAIM program so they can better serve our members. On this page you will find the most current information – guides, forms, trainings and more – as well as the latest updates from our Plan. This page will be updated as new information and guidelines are available.
