# Services That Can Be Obtained without Referral

## Primary EPO

Health Net's Primary Exclusive Provider Organization (EPO) product provides benefits through an EPO network which consists of participating providers from whom you are required to obtain all medical care, services and supplies. In addition to the requirement that benefits of this plan (except emergency care) must be provided by

participating providers in order for the services to be payable, the provision of medical services must be coordinated by a primary care physician (PCP) who is a participating provider in the Health Net Life EPO network. This means that all medical care and supplies which you obtain must be provided, authorized or arranged by your PCP in order for the services to be covered.

## Timeline Standards for Access to Care

Access type	Standard
Non-urgent appointments for primary care – Regular and routine care (PCP) appointment	Appointment within 10 business days of request
Urgent care (PCP) services that do not require prior authorization	Wait time not to exceed 48 hours of request
Urgent care (specialist and other) services that require prior authorization	Appointment within 96 hours of request
Non-urgent appointments with specialist	Appointment within 15 business days of request
Non-urgent appointments with a non-physician mental health care provider	Appointment within 10 business days of request
Non-urgent appointments for ancillary services for the diagnosis or treatment of injury, illness or other health condition	Appointment within 15 business days of request

**Note:** The applicable waiting time for a particular appointment may be extended if the referring or treating licensed health care provider (or the health professional providing triage or screening services, as applicable), acting within the scope of his or her practice and consistent

with professionally recognized standards of practice, has determined and noted in the relevant record that a longer waiting time will not have a detrimental impact on the health of the covered person.

Also, preventive care services and periodic follow-up care (including, but not limited to, standing referrals to specialists for chronic conditions, periodic office visits to monitor and treat pregnancy, cardiac or mental health conditions, and laboratory and radiological

monitoring for recurrence of disease) may be scheduled in advance, consistent with professionally recognized standards of practice as determined by the treating licensed health care provider acting within the scope of his or her practice.

# Servicios Que Pueden Obtenerse sin Remisión

## Primary EPO

El producto Primary EPO (Organización de Proveedores Exclusivos) de Health Net proporciona beneficios a través de una red EPO formada por proveedores participantes de los que usted debe obtener toda la atención, los servicios y los suministros médicos. Además del requisito de que los beneficios de este plan (excepto la atención de emergencia) deben ser brindados por proveedores

participantes para que los servicios puedan pagarse, la prestación de servicios médicos debe ser coordinada por un médico de atención primaria (por sus siglas en inglés, PCP) que sea un proveedor participante de la red Health Net Life EPO. Esto significa que toda la atención y los suministros médicos que usted obtenga deben ser proporcionados, autorizados o coordinados por su médico de atención primaria para que los servicios estén cubiertos.

## Estándares de los Plazos para el Acceso a la Atención

Tipo de acceso	Estándar
Citas que no son de urgencia para atención primaria – Cita para atención regular y de rutina (médico de atención primaria)	Cita dentro de los 10 días hábiles a partir de la solicitud
Servicios de atención de urgencia (médico de atención primaria) que no requieren autorización previa	El tiempo de espera no debe exceder las 48 horas a partir de la solicitud
Servicios de atención de urgencia (especialista y otros) que requieren autorización previa	Cita dentro de las 96 horas a partir de la solicitud
Citas que no son de urgencia con un especialista	Cita dentro de los 15 días hábiles a partir de la solicitud
Citas que no son de urgencia con un proveedor de cuidado de la salud mental no médico	Cita dentro de los 10 días hábiles a partir de la solicitud
Citas que no son de urgencia para recibir servicios auxiliares con fines de diagnóstico o tratamiento de una lesión, enfermedad u otra afección de salud	Cita dentro de los 15 días hábiles a partir de la solicitud

**Nota:** El tiempo de espera aplicable para una cita en particular puede extenderse si el proveedor de cuidado de la salud con licencia que realiza la remisión o trata a la persona cubierta (o el profesional de la salud que presta servicios de selección o clasificación según las prioridades de atención, según corresponda), que actúa

dentro del alcance de su práctica y de acuerdo con los estándares profesionalmente reconocidos de la práctica, ha determinado y anotado en el registro relevante que un tiempo de espera más prolongado no tendrá un impacto perjudicial para la salud de la persona cubierta.

Además, los servicios de atención preventiva y la atención de seguimiento periódica (incluyendo, pero sin limitarse a, remisiones permanentes a especialistas para afecciones crónicas, visitas al consultorio periódicas para el control y tratamiento del embarazo, afecciones cardíacas o de salud mental, y control radiológico y de

laboratorio para la recurrencia de enfermedades) pueden programarse con anticipación de acuerdo con los estándares profesionalmente reconocidos de la práctica según lo determine el proveedor de cuidado de la salud con licencia que trata a la persona cubierta y actúa dentro del alcance de su práctica.

# Glossary of Terms

**Authorization:** If you need a special type of care, your primary care physician will refer you to a specialist. If your doctor's request for referral is approved, you will be given a form called an Authorization for Consultant's Services. This form lists the type of care or services that you need and the number of visits that you can schedule. Always check with your primary care physician to make sure all your visits to a specialist are covered by Health Net.

**Primary care physician:** The physician who is responsible for performing, prescribing, directing or authorizing all of your health care, including routine, referral and follow-up treatment. If you need a special type of care, your primary care physician will be responsible for referring you to an outside specialist.

**Provider:** This term applies primarily to any facility, physician or other health care professional contracted with Health Net to provide care to members on a preauthorized or contractual basis.

**Referral:** See authorization.

**Referral specialist:** Your primary care physician is responsible for administering your care, and he or she will authorize a referral to an appropriate specialist when necessary. You may not select a referral specialist physician as your primary care physician.

**Urgent care:** When conditions require treatment within several days but are not considered immediately life-threatening, they require urgent care. Examples of urgent medical conditions are sprains and fractures. If your primary care physician is not available to see you on a same-day basis, you will be referred to a facility where you can receive the care you need.

# Glosario de Términos

**Autorización:** Si usted necesita un tipo especial de atención, su médico de atención primaria lo referirá a un especialista. Si la solicitud de referencia de su médico es aprobada, se le entregará un formulario llamado Autorización para Servicios de Especialista. Este formulario enumera el tipo de atención o de servicios que usted necesita y la cantidad de consultas que usted puede programar. Consulte siempre con su médico de atención primaria para asegurarse que todas sus consultas con el especialista estén cubiertas por Health Net.

**Médico de atención primaria:** Es el médico responsable de realizar, recetar, indicar o autorizar todos sus cuidados de la salud, incluyendo los tratamientos de rutina, de referencia y de seguimiento. Si usted necesita atención de tipo especial, su médico de atención primaria será responsable de su referencia a un especialista externo.

**Proveedor:** Este término se aplica principalmente a cualquier centro de salud, médico u otro profesional para el cuidado de la salud contratado por Health Net, que brinda atención a los afiliados mediante autorizaciones previas o por medio de contratos.

**Referencia:** Ver Autorización.

**Especialista de referencia:** Su médico de atención primaria es responsable de administrar su atención, además de autorizar una referencia a un especialista adecuado, cuando sea necesario. No puede seleccionar a un médico especialista de referencia como su médico de atención primaria.

**Atención de urgencia:** Cuando las condiciones requieren tratamiento dentro de varios días pero no se considera que pongan en riesgo la vida de inmediato, dichas condiciones requieren atención de urgencia. Los esguinces y las fracturas son ejemplos de condiciones médicas de urgencia. Si su médico de atención primaria no se encuentra disponible para atenderlo el mismo día, usted será referido a un centro de salud donde pueda recibir la atención que necesita.
