## Well-being as a way of life

**With SmartCare, you can offer benefits** that make your employees feel valued, support their well-being and sustain productivity.

Your employees' healthy habits are rewarded. Adult members can earn an annual \$50 gift card reward just by completing the Health Risk Questionnaire (HRQ) and sharing the results with their doctor.

And, acupuncture and chiropractic services are included as value-added benefits, because we understand how important these complementary services are for many Californians.

SmartCare offers convenient access to MinuteClinics (typically offered at CVS pharmacies) for treatment of common family illnesses and injuries, vaccinations and monitoring for chronic conditions.
