Your Employer Group Is Offering Health Net POS as a Health Plan Option.

A POS plan is right for you if you want:

- Fixed dollar amount copays for most services and doctor-coordinated care through your HMO option.
- Freedom to see specialists without referrals through your PPO option.
- Ability to choose in- and out-of-network providers – you'll generally pay less when using our network.
- No claim form filing when using in-network services.

Take a closer look at how a POS plan works

Choosing your doctor

When you enroll in a POS plan, you select a participating physician group (PPG) from our list of PPGs, and then choose a contracted primary care physician (PCP) within that group. Each member of your family can choose a different PCP and a different PPG to suit their individual needs.

Accessing care¹

Through the HMO option of your POS plan, your PCP can coordinate your routine and hospital care. Through the PPO option of your POS plan, you can access specialist care both in and out of the Health Net PPO provider network without a referral from your PCP. If your OB/GYN is in our HMO network, you don't need a referral. Just make your appointment.

Behavioral health

Behavioral health programs support whole-person wellness and include services to Health Net members with needs related to mental illness or substance abuse, including addiction to alcohol or drug abuse. If behavioral health benefits are not included in the enclosed Summary of Benefits, you will be eligible for a separate behavioral benefits plan through your employer group or administrator.

This overview provides benefit information highlights only. Your plan contract, which you will receive after you enroll, contains the exact terms and conditions of your Health Net coverage.

¹Check your Evidence of Coverage for specifics on accessing care.

Getting to know Health Net

Reputation for quality

- Multicultural Health Care Distinction award from the National Committee for Quality Assurance (NCQA).
- Commercial HMO/POS and PPO plans ranked among the top in the state by NCQA in 2012–2013.

Cost-saving tips

- Use urgent care instead of emergency care whenever possible. For emergency situations, call 911 or go to the nearest hospital.
- Get generic alternatives to brand-name medications.
- In most cases, you'll pay a lower copay at an outpatient surgical center versus a hospital-based ambulatory center.
