How the plan works

Please read the following information so you will know from whom health care may be obtained, or what physician group to use.

SELECTION OF PHYSICIANS AND PHYSICIAN GROUPS

- When you enroll with Health Net, you choose a contracting physician group. From your physician group, you select one doctor to provide basic health care; this is your Primary Care Physician (PCP).
- Health Net requires the designation of a Primary Care Physician. A Primary Care Physician provides and coordinates your medical care. You have the right to designate any Primary Care Physician who participates in our network and who is available to accept you or your family members, subject to the requirements of the physician group. For children, a pediatrician may be designated as the Primary Care Physician. Until you make this designation, Health Net designates one for you. For information on how to select a Primary Care Physician and for a list of the participating Primary Care Physicians, refer to your Health Net Group HMO Directory (Health Net HMO Directory). The Health Net HMO Directory is also available on the Health Net website at www.healthnet.com.
- Whenever you or a covered family member needs health care, your PCP will provide the medically necessary care. Specialist care is also available, when referred by your PCP or physician group.
- You do not have to choose the same physician group or PCP for all members of your family. Physician groups, with names of physicians, are listed in the Health Net HMO Directory.

HOW TO CHOOSE A PHYSICIAN

Choosing a PCP is important to the quality of care you receive. To be comfortable with your choice, we suggest the following:

- Discuss any important health issues with your chosen PCP;
- Ask your PCP or the physician group about the specialist referral policies and hospitals used by the physician group; and
- Be sure that you and your family members have adequate access to medical care, by choosing a doctor located within 30 miles of your home or work.

SPECIALISTS AND REFERRAL CARE

If you need medical care that your PCP cannot provide, your PCP may refer you to a specialist or other health care provider for that care. Refer to the "Mental Disorders and Chemical Dependency Care" section below for information about receiving care for Mental Disorders and Chemical Dependency.

You do not need prior authorization from Health Net or from any other person (including a Primary Care Physician) in order to obtain access to obstetrical or gynecological care from a health care professional in our network who specializes in obstetrics or gynecology. The health care professional, however, may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals. For a list of participating health care professionals who specialize in obstetrics or gynecology, refer to your Health Net Group HMO Directory (Health Net HMO Directory). The Health Net HMO Directory is also available on the Health Net website at www.healthnet.com.

HMO SPECIALIST ACCESS

Health Net offers Rapid Access[®], a service that makes it easy for you to quickly connect with a specialist in Health Net's network. Ask your group or check the *Health Net HMO Directory* to see if your physician group allows "self-referrals" or "direct referrals" to specialists within the same group. Self-referral allows you to contact a specialist directly for consultation and evaluation. Direct referral allows your doctor to refer you directly to a specialist without the need for physician group authorization. Information about your physician group's referral policies is also available to you on our web site at www.healthnet.com.

MENTAL DISORDERS AND CHEMICAL DEPENDENCY CARE

Health Net contracts with MHN Services, an affiliate behavioral health administrative services company (the Behavioral Health Administrator), which administers behavioral health services for mental disorders and chemical dependency conditions. For more information about how to receive care and the Behavioral Health Administrator's prior authorization requirements, please refer to the "Behavioral Health Services" section of this SB/DF.

CVS MINUTE CLINIC SERVICES

The CVS MinuteClinic is a health care facility, generally inside CVS/pharmacy stores, which is designed to offer an alternative to a Physician's office visit for the unscheduled treatment of non-emergency illnesses or injuries such as strep throat, pink eye or seasonal allergies. Visits to a CVS MinuteClinic are covered as shown in the "Schedule of Benefits and Coverage" section.

You do not need prior authorization or a referral from your primary care physician or contracting physician group in order to obtain access to CVS MinuteClinic services. However, a referral from the contracting Physician Group or Primary Care Physician is required for any Specialist consultations. For more detailed information about CVS MinuteClinics, please refer to the plan's EOC or contact Health Net at the telephone number shown on the back cover.

HOW TO ENROLL

Complete the enrollment form found in the enrollment packet and return the form to your employer. If a form is not included, your employer may require you to use an electronic enrollment form or an interactive voice response enrollment system. Please contact your employer for more information.

Some hospitals and other providers do not provide one or more of the following services that may be covered under the plan's *Evidence of Coverage* and that you or your family member might need:

- Family planning
- Contraceptive services; including emergency contraception
- Sterilization, including tubal ligation at the time of labor and delivery
- Infertility treatments
- Abortion

You should obtain more information before you enroll. Call your prospective doctor, medical group, independent practice association or clinic, or call the Health Net Customer Contact Center at the phone number on the back cover to ensure that you can obtain the health care services that you need.

Schedule of benefits and coverage

This MATRIX is intended TO BE USED to help you compare coverage benefits and is a summary only. The PLAN CONTRACT AND evidence of coverage (EOC) should be consulted for a detailed description of coverage benefits and limitations.

The copayment amounts listed below are the fees charged to you for covered services you receive. Copayments can be either a fixed dollar amount or a percentage of Health Net's cost for the service or supply and is agreed to in advance by Health Net and the contracted provider. Fixed dollar copayments are due and payable at the time services are rendered. Percentage copayments are usually billed after the service is received.

Principal benefits and coverage matrix

For certain medical services and supplies under this plan, except as specifically noted below, a calendar-year deductible applies, which must be satisfied before these services and supplies are covered. Lifetime maximums None

Out-of-Pocket maximum

(ASH Plans), no additional copayments for covered services and supplies are required for the remainder of the calendar year. Once an individual member in a family meets the individual out-of-pocket maximum, the other enrolled family members must continue to pay copayments for covered services and supplies until the total amount of copayments paid by the family reaches the family out-of-pocket maximum or each enrolled family member individually meets the individual out-of-pocket maximum.

Payments for services not covered by this plan will not count toward this calendar year out-of-pocket maximum, unless otherwise noted. You must continue to pay copayments for any services and supplies that do not apply to the out-of-pocket maximum.

♦Regardless of prescription drug tier, Generic Drugs will be dispensed when a Generic Drug equivalent is available. We will cover Brand Name drugs, including Specialty Drugs, that have generic equivalents only when the Brand Name Drug is Medically Necessary and the Physician obtains Prior Authorization from Health Net. Covered Brand Name Drugs are subject to the applicable Copayment for Tier II, Tier III or Tier IV (Specialty Drugs) prescription drugs.

A physician must obtain Health Net's prior authorization for coverage of brand name drugs that have generic equivalents.

**Preventive drugs, including smoking cessation drugs, and women's contraceptives that are approved by the Food and Drug Administration are covered at no cost to the member, and are not subject to the deductible. Covered preventive drugs included prescribed over-the-counter drugs and prescription drugs that are used for preventive health purposes per the U.S. Preventive Services Task Force A and B recommendations, including smoking cessation drugs.*

If a brand name drug is dispensed, and there is a generic equivalent commercially available, you will be required to pay the difference in cost between the generic and brand name drug. However, if a brand name drug is medically necessary and the physician obtains prior authorization from Health Net, then the brand name drug will be dispensed at no charge.

Tier IV (Specialty Drugs) are specific Prescription Drugs that may have limited pharmacy availability or distribution, may be self-administered orally, topically, by inhalation, or by injection (either subcutaneously, intramuscularly or intravenously) requiring training or clinical monitoring, be manufactured using biotechnology, or have high cost as established by Covered California. Tier IV (Specialty Drugs) are identified in the Essential Rx Drug List with "SP", require Prior Authorization from Health Net and may be required to be dispensed through the Specialty Pharmacy Vendor to be covered. Tier IV (Specialty) Drugs are not available through mail order.

Percentage copayments will be based on Health Net's contracted pharmacy rate.

If the retail price is less than the applicable copayment, then you will pay the retail price. Prescription drug covered expenses are the lesser of Health Net's contracted pharmacy rate or the pharmacy's retail price for covered prescription drugs.

This plan uses the Essential Rx Drug List. The Health Net Essential Rx Drug List (the List) is the approved list of medications covered for illnesses and conditions. It is prepared by Health Net and distributed to Health Net contracted physicians and participating pharmacies. The List also shows which drugs are Tier I, Tier II, Tier III or Tier IV, so you know which copayment applies to the covered drug. Drugs that are not on the List (that are not excluded or limited from coverage) are also covered at the Tier III or Tier IV drug copayment.

Some drugs require prior authorization from Health Net. Urgent requests from physicians for authorization are processed as soon as possible, not to exceed 24 hours after Health Net's receipt of the request and any additional information requested by Health Net that is reasonably necessary to make the determination. Routine requests from physicians are processed in a timely fashion, not to exceed 72 hours, as appropriate and medically necessary, for the nature of the member's condition after Health Net's receipt of the information reasonably necessary and requested by Health Net to make the determination. For a copy of the Essential Rx Drug List, call the Customer Contact Center at the number listed on the back cover of this booklet or visit our website at www.healthnet.com.

Benefits and coverage

WHAT YOU PAY FOR SERVICES

The "Schedule of benefits and coverage" section explains your coverage and payment for services. Please take a moment to look it over.

TIMELY ACCESS TO NON-EMERGENCY HEALTH CARE SERVICES

The California Department of Managed Health Care (DMHC) has issued regulations (California Code of Regulations, Title 28, Section 1300.67.2.2) with requirements for timely access to non-emergency health care services.

You may contact Health Net at the number shown on y the back cover, 7 days per week, 24 hours per day to access triage or screening services. Health Net provides access to covered health care services in a timely manner. For further information, please refer to the plan's EOC or contact the Health Net Customer Contact Center at the phone number on the back cover.

SPECIAL ENROLLMENT RIGHTS IF YOU LOSE ELIGIBILITY FROM THE ACCESS FOR INFANTS OR MOTHERS PROGRAM (AIM) OR A MEDI-CAL PLAN

If you become ineligible and lose coverage under the Access for Infants or Mothers Program (AIM) or a Medi-Cal plan, you are eligible for a special enrollment period in which you and your dependent(s) are eligible to request enrollment in this plan within 60 days of becoming ineligible and losing coverage from the Access for Infants and Mothers Program (AIM) or a Medi-Cal plan.

NOTICE OF REQUIRED COVERAGE

Benefits of this plan provide coverage required by the Federal Newborns' and Mothers' Health Protection Act of 1996 and Women's Health and Cancer Right Act of 1998.

The Newborns' and Mothers' Health Protection Act of 1996 sets requirements for a minimum Hospital length of stay following delivery. Specifically, group health plans and health insurance issuers generally may not, under Federal law, restrict benefits for any hospital length of stay in connection with childbirth for the mother or newborn child to less than 48 hours following a vaginal delivery, or less than 96 hours following a cesarean section. However, Federal law generally does not prohibit the mother's or newborn's attending provider, after consulting with the mother, from discharging the mother or her newborn earlier than 48 hours (or 96 hours as applicable). In any case, plans and issuers may not, under Federal law, require that a provider obtain authorization from the plan or the insurance issuer for prescribing a length of stay not in excess of 48 hours (or 96 hours).

The Women's Health and Cancer Right Act of 1998 applies to medically necessary mastectomies and requires coverage for prosthetic devices and reconstructive surgery on either breast provided to restore and achieve symmetry.

COVERAGE FOR NEWBORNS

Children born after your date of enrollment are automatically covered at birth. To continue coverage, the child must be enrolled through your employer before the 60th day of the child's life. If the child is not enrolled within 60 days of the child's birth:

- Coverage will end the 31st day after birth; and
- You will have to pay your physician group for all medical care provided after the 30th day of your baby's life.

EMERGENCIES

Health Net covers emergency and urgently needed care throughout the world. If you need emergency or urgently needed care, seek care where it is immediately available. Depending on your circumstances, you may seek this care by going to your physician group (medical) or the Behavioral Health Administrator (mental disorder and chemical dependency) or to the nearest emergency facility or by calling **911**.

You are encouraged to use appropriately the **911** emergency response system, in areas where the system is established and operating, when you have an emergency medical condition (including severe mental illness and serious emotional disturbances of a child) that requires an emergency response. All air and ground ambulance and ambulance transport services provided as a result of a **911** call will be covered, if the request is made for an emergency medical condition (including severe mental illness and serious emotional disturbances of a child).

All follow-up care (including severe mental illness and serious emotional disturbances of a child) after the urgency has passed and your condition is stable, must be provided or authorized by your physician group (medical) or the Behavioral Health Administrator (mental disorder and chemical dependency); otherwise, it will not be covered by Health Net.

Emergency Care includes medical screening, examination and evaluation by a physician (or other personnel to the extent permitted by applicable law and within the scope of his or her license and privileges) to determine if an emergency medical condition or active labor exists and, if it does, the care, treatment, and surgery, if within the scope of that person's license, necessary to relieve or eliminate the emergency medical condition, within the capability of the facility. "Active labor" means labor at the time that either of the following could reasonably be expected to occur: (1) There is inadequate time to effect safe transfer to another hospital prior to delivery; or (2) a transfer poses a threat to the health and safety of the member or unborn child. Emergency care will also include additional screening, examination and evaluation by a physician (or other personnel to the extent permitted by applicable law and within the scope of his or her license and privileges) to determine if a psychiatric emergency medical condition exists, and the care and treatment necessary to relieve or eliminate the psychiatric emergency medical condition, either within the capability of the facility or by transferring the member to a psychiatric unit within a general acute hospital or to an acute psychiatric hospital as medically necessary.

All air and ground ambulance and ambulance transport services provided as a result of a 911 call will be covered, if the request is made for an emergency medical condition (including severe mental illness and serious emotional disturbances of a child).

Emergency Medical Condition is a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that the absence of immediate medical attention could reasonably be expected to result in any of the following:

- Placing the patient's health in serious jeopardy.
- Serious impairment to bodily functions.
- Serious dysfunction of any bodily organ or part.

Emergency Psychiatric Medical Condition means a mental disorder that manifests itself by acute symptoms of sufficient severity that it renders the patient as being either of the following:

- An immediate danger to himself or herself or to others.
- Immediately unable to provide for, or utilize, food, shelter, or clothing, due to the Mental Disorder.

Urgently needed care includes otherwise covered medical service a person would seek for treatment of an injury, unexpected illness or complication of an existing condition, including pregnancy, to prevent the serious deterioration of his or her health, but which does not qualify as emergency

care, as defined in this section. This may include services for which a person should have known an emergency did not exist.

MEDICALLY NECESSARY CARE

All services that are medically necessary will be covered by your Health Net plan (unless specifically excluded under the plan). All covered services or supplies are listed in the plan's EOC; any other services or supplies are not covered.

SECOND OPINIONS

You have the right to request a second opinion when:

- Your PCP or a referral physician gives a diagnosis or recommends a treatment plan that you are not satisfied with;
- You are not satisfied with the result of treatment you have received;
- You are diagnosed with, or a treatment plan is recommended for, a condition that threatens loss of life, limb, or bodily function, or a substantial impairment, including but not limited to a serious chronic condition; or
- Your PCP or a referral physician is unable to diagnose your condition, or test results are conflicting.

To obtain a copy of Health Net's second opinion policy, call the Customer Contact Center at the phone number on the back cover.

CLINICAL TRIALS

Routine patient care costs for patients diagnosed with cancer or other life-threatening disease or condition who are accepted into phase I, II, III, or IV clinical trials are covered when medically necessary, recommended by the member's treating physician and authorized by Health Net. The physician must determine that participation has a meaningful potential benefit to the member and the trial has therapeutic intent. For further information, please refer to the plan's EOC.

EXTENSION OF BENEFITS

If you or a covered family member is totally disabled when your employer ends its group services agreement with Health Net, we will cover the treatment for the disability until one of the following occurs:

- A maximum of 12 consecutive months elapses from the termination date;
- Available benefits are exhausted;
- The disability ends; or
- The member becomes enrolled in another plan that covers the disability.

Your application for an extension of benefits for disability must be made to Health Net within 90 days after your employer ends its agreement with us. We will require medical proof of the total disability at specified intervals.

CONFIDENTIALITY AND RELEASE OF MEMBER INFORMATION

Health Net knows that personal information in your medical records is private. Therefore, we protect your personal health information in all settings (including oral, written and electronic information). The only time we would release your confidential information without your authorization is for payment, treatment, health care operations (including, but not limited to utilization management, quality improvement, disease or case management programs) or when permitted or required to do so by law, such as for court order or subpoena. We will not release your confidential claims details to your employer or their agent. Often

Health Net is required to comply with aggregated measurement and data reporting requirements. In those cases, we protect your privacy by not releasing any information that identifies our members.

PRIVACY PRACTICES

Once you become a Health Net member, Health Net uses and discloses a member's protected health information and nonpublic personal financial information* for purposes of treatment, payment, health care operations, and where permitted or required by law. Health Net provides members with a Notice of Privacy Practices that describes how it uses and discloses protected health information; the individual's rights to access, to request amendments, restrictions, and an accounting of disclosures of protected health information; and the procedures for filing complaints. Health Net will provide you the opportunity to approve or refuse the release of your information for non-routine releases such as marketing. Health Net provides access to members to inspect or obtain a copy of the member's protected health information in designated record sets maintained by Health Net. Health Net protects oral, written and electronic information across the organization by using reasonable and appropriate security safeguards. These safeguards include limiting access to an individual's protected health information to only those who have a need to know in order to perform payment, treatment, health care operations or where permitted or required by law. Health Net releases protected health information to plan sponsors for administration of self-funded plans but does not release protected health information to plan sponsors/employers for insured products unless the plan sponsor is performing a payment or health care operation function for the plan. Health Net's entire Notice of Privacy Practices can be found in the plan's EOC, at www.healthnet.com under "Privacy" or you may call the Customer Contact Center at the phone number on the back cover of this booklet to obtain a copy.

** Nonpublic personal financial information includes personally identifiable financial information that you provided to us to obtain health plan coverage or we obtained in providing benefits to you. Examples include Social Security numbers, account balances and payment history. We do not disclose any nonpublic personal information about you to anyone, except as permitted by law.*

TECHNOLOGY ASSESSMENT

New technologies are those procedures, drugs or devices that have recently been developed for the treatment of specific diseases or conditions or are new applications of existing procedures, drugs or devices. New technologies are considered investigational or experimental during various stages of clinical study as safety and effectiveness are evaluated and the technology achieves acceptance into the medical standard of care. The technologies may continue to be considered investigational or experimental if clinical study has not shown safety or effectiveness or if they are not considered standard care by the appropriate medical specialty. Approved technologies are integrated into Health Net benefits.

Health Net determines whether new technologies should be considered medically appropriate, or investigational or experimental, following extensive review of medical research by appropriately specialized physicians. Health Net requests review of new technologies by an independent, expert medical reviewer in order to determine medical appropriateness or investigational or experimental status of a technology or procedure.

The expert medical reviewer also advises Health Net when patients require quick determinations of coverage, when there is no guiding principle for certain technologies or when the complexity of a patient's medical condition requires expert evaluation. If Health Net denies, modifies or delays coverage for your requested treatment on the basis that it is experimental or investigational, you may request an independent medical review (IMR) of Health Net's decision from the Department of Managed Health Care. Please refer to the "Independent Medical Review of Grievances Involving a Disputed Health Care Service" in the *Evidence of Coverage* for additional details.

Utilization management

Utilization management is an important component of health care management. Through the processes of pre-authorization, concurrent and retrospective review and care management, we evaluate the services provided to our members to be sure they are medically necessary and appropriate for the setting and time. These processes help to maintain Health Net's high quality medical management standards.

PRE-AUTHORIZATION

Certain proposed services may require an assessment prior to approval. Evidence-based criteria are used to evaluate whether or not the procedure is medically necessary and planned for the appropriate setting (that is, inpatient, ambulatory surgery, etc.).

CONCURRENT REVIEW

This process continues to authorize inpatient and certain outpatient conditions on a concurrent basis while following a member's progress, such as during inpatient hospitalization or while receiving outpatient home care services.

DISCHARGE PLANNING

This component of the concurrent review process ensures that planning is done for a member's safe discharge in conjunction with the physician's discharge orders and to authorize post-hospital services when needed.

RETROSPECTIVE REVIEW

This medical management process assesses the appropriateness of medical services on a case-by-case basis after the services have been provided. It is usually performed on cases where pre-authorization was required but not obtained.

CARE OR CASE MANAGEMENT

Nurse care managers provide assistance, education and guidance to members (and their families) through major acute and/or chronic long-term health problems. The care managers work closely with members, their physicians and community resources.

If you would like additional information regarding Health Net's utilization management process, please call the Health Net Customer Contact Center at the phone number on the back cover.

Payment of fees and charges

YOUR COPAYMENT AND DEDUCTIBLES

The "Schedule of benefits and coverage" section explains your coverage and payment for services. Please take a moment to look it over.

PREPAYMENT FEES

Your employer will pay Health Net your monthly subscription charges for you and all enrolled family members. Check with your employer regarding any share that you may be required to pay. If your share ever increases, your employer will inform you in advance.

OTHER CHARGES

You are responsible for payment of your share of the cost of services covered by this plan. Amounts paid by you are called copayments, which are described in the "Schedule of benefits and coverage" section of this SB/DF. Beyond these charges the remainder of the cost of covered services will be paid by Health Net.

When the total amount of copayments you pay equals the out-of-pocket maximum shown in the "Schedule of benefits and coverage" section, you will not have to pay additional copayments for the rest of the year for most services provided or authorized by your physician group.

Payment for services not covered by this plan will not count toward the calendar year out-of-pocket maximum. Additionally, certain deductibles and copayments will not count toward the out-of-pocket maximum as shown in the "Schedule of benefits and coverage" section. For further information please refer to the plan's EOC.

LIABILITY OF SUBSCRIBER OR ENROLLEE FOR PAYMENT

If you receive health care services without the required referral or authorization from your PCP or physician group (medical), or the Behavioral Health Administrator (mental disorder and chemical dependency), you are responsible for the cost of these services.

Remember, this plan only covers services that are provided or authorized by a PCP or physician group or the Behavioral Health Administrator, except for emergency or out-of-area urgent care. Consult the Health Net HMO Directory for a full listing of Health Net-contracted physicians.

REIMBURSEMENT PROVISIONS

Payments that are owed by Health Net for services provided by or through your physician group (medical), or the Behavioral Health Administrator (mental disorder and chemical dependency) will never be your responsibility.

If you have out-of-pocket expenses for covered services, call the Health Net Customer Contact Center for a claim form and instructions. You will be reimbursed for these expenses less any required copayment or deductible. (Remember, you do not need to submit claims for medical services provided by your PCP or physician group.)

If you receive emergency services not provided or directed by your physician group, you may have to pay at the time you receive service. To be reimbursed for these charges, you should get a complete statement of the services received and, if possible, a copy of the emergency room report.

Please call the Health Net Customer Contact Center at the phone number on the back cover to obtain claim forms, and to find out whether you should send the completed form to your physician group (medical) or the Behavioral Health Administrator (mental disorder and chemical dependency) or directly to Health Net. PROVIDER REFERRAL AND REIMBURSEMENT DISCLOSURE

If you are considering enrolling in our plan, you are entitled to ask if the plan has special financial arrangements with our physicians that can affect the use of referrals and other services you may need. Health Net uses financial incentives and various risk sharing arrangements when paying providers. To get this information, call the Health Net Customer Contact Center at the phone number on the back cover. You can also contact your physician group or your PCP to find out about our physician payment arrangements.

Facilities

Health care services for you and eligible members of your family will be provided at:

- The facilities of the physician group you chose at enrollment; or
- A nearby Health Net-contracted hospital, if hospitalization is required.

Many Health Net contracting physician groups have either a physician on call 24 hours a day or an urgent care center available to offer access to care at all times.

The physician group you choose will also have a contractual relationship with local hospitals (for acute, subacute and transitional care) and skilled nursing facilities. These are listed in your *Health Net HMO Directory*.

PHYSICIAN GROUP TRANSFERS

You may switch doctors within the same physician group at any time. You may also transfer to another physician group monthly. Simply contact Health Net by the 15th of the month to have your transfer effective by the 1st of the following month. If you call after the 15th, your transfer will be effective the 1st of the second following month.

Transfer requests will generally be honored unless you are confined to a hospital. (However, Health Net may approve transfers under this condition for certain unusual or serious circumstances. Please call the Health Net Customer Contact Center at the phone number on the back cover of this booklet for more information.)

CONTINUITY OF CARE

Transition of Care for New Enrollees

You may request continued care from a provider who does not contract with Health Net if at the time of your enrollment with Health Net you were receiving care for the conditions listed below. Health Net may provide coverage for completion of services from a non-participating provider, subject to applicable copayments and any exclusions and limitations of your plan. You must request the coverage within 60 days of your group's effective date unless you can show that it was not reasonably possible to make the request within 60 days of the group's effective date and you make the request as soon as reasonably possible. The non-participating provider must be willing to accept the same contract terms applicable to providers currently contracted with Health Net, who are not capitated and who practice in the same or similar geographic region. If the provider does not accept such terms, Health Net is not obligated to provide coverage with that provider.

Continuity of Care Upon Termination of Provider Contract

If Health Net's contract with a physician group or other provider ends, Health Net will transfer any affected members to another contracted physician group or provider to ensure that care continues. Health Net will provide a written notice to affected members at least 60-days prior to termination of a contract with a physician group or an acute care hospital to which members are assigned for services. For all other hospitals that end their contract with Health Net, a written notice will be provided to affected members within five days after the effective date of the contract termination.

Health Net may provide coverage for completion of services from a provider whose contract has ended, subject to applicable copayments and any other exclusions and limitations of your plan and if such provider is willing to accept the same contract terms applicable to the provider prior to the provider's contract termination. You must request continued care within 30 days of the provider's date of termination, unless you can show that it was not reasonably possible to make the request within 30 days of the provider's date of termination and you make the request as soon as it is reasonably possible.

You may request continued care from a provider whose contract is terminated if at the time of termination the member was receiving care from such a provider for the conditions listed below.

- The following conditions are eligible for continuation of care;
- An acute condition;
- A serious chronic condition not to exceed twelve months;
- A pregnancy (including the duration of the pregnancy and immediate postpartum care);
- A newborn (up to 36 months of age, not to exceed twelve months);
- A terminal illness (through the duration of the terminal illness);

- A surgery or other procedure that has been authorized by Health Net (or by the member's prior health plan for a new enrollee) as part of a documented course of treatment.

In addition, you may request continued care from a provider, including a hospital, if you have been enrolled in another Health Net HMO plan that included a larger network than this plan, Health Net will offer the same scope of continuity of care for completion of services, regardless of whether you had the opportunity to retain your current provider by selecting either:

- A Health Net product with an out of network benefit;
- A different Health Net HMO network product that included your current provider; or
- Another health plan or carrier product.

If you would like more information on how to request continued care or to request a copy of Health Net's continuity of care policy, please call the Health Net Customer Contact Center at the phone number on the back cover.

Renewing, continuing or ending coverage

RENEWAL PROVISIONS

The contract between Health Net and your employer is usually renewed annually. If your contract is amended or terminated, your employer will notify you in writing.

SMALL EMPLOYER CAL-COBRA COVERAGE

When the group is a small employer (as defined in the *Evidence of Coverage*), state law provides that members who enroll in this plan and later lose eligibility may be entitled to continuation of group coverage. More information regarding eligibility for this coverage is provided in your *Evidence of Coverage*.

INDIVIDUAL CONTINUATION OF BENEFITS

If your employment with your current employer ends, you and your covered family members may qualify for continued group coverage under:

- **COBRA (Consolidated Omnibus Budget Reconciliation Act of 1985):** For most groups with 20 or more employees, COBRA applies to employees and their eligible dependents, even if they live outside of California. Please check with your group to determine if you and your covered dependents are eligible.
- **Small Employer Cal-COBRA Continuation Coverage:** For employers with fewer than 20 employees who were eligible to enroll in the employer's health plan on 50% of the employer's business days in the preceding year, Health Net is required by state law to offer continuation coverage.
- **Cal-COBRA Continuation Coverage:** If you have exhausted COBRA and you live in the Health Net Service Area, you may be eligible for additional continuation coverage under state Cal-COBRA law. This coverage may be available if you have exhausted federal COBRA coverage, have had less than 36 months of COBRA coverage, and you are not entitled to Medicare. If you are eligible, you have the opportunity to continue group coverage under this plan through Cal-COBRA for up to 36 months from the date that federal COBRA coverage began.

- **USERRA Coverage:** Under a federal law known as the Uniformed Services Employment and Reemployment Rights Act (USERRA), employers are required to provide employees who are absent from employment to serve in the uniformed services and their dependents who would lose their group health coverage the opportunity to elect continuation coverage for a period of up to 24 months. Please check with your group to determine if you are eligible.

TERMINATION OF BENEFITS

The following information describes circumstances when your coverage in this plan may be terminated. For a more complete description of termination of benefits, please see the plan's EOC.

Termination for Nonpayment of Subscription Charges

Your coverage under this plan ends when the agreement between the employer and Health Net terminates due to nonpayment of the subscription charges by the employer. Health Net will provide your employer a 30-day grace period to submit the delinquent subscription charges. If your employer fails to pay the required subscription charges by the end of the 30-day grace period, the agreement between Health Net and your employer will be cancelled and Health Net will terminate your coverage at the end of the grace period.

Termination for Loss of Eligibility

Your coverage under this plan ends on the date you become ineligible. Some reasons that you may lose eligibility in this plan include, but are not limited to, the following situations:

- The agreement between the employer covered under this plan and Health Net ends;
- You cease to either live or work within Health Net's service area; or
- You no longer work for the employer covered under this plan.

Termination for Cause

Coverage under this Health Net plan may be terminated for good cause with a 30-day written notice for a member who commits any act or practice, which constitutes fraud, or for any intentional misrepresentation of material fact under the terms of the agreement, including:

- Misrepresenting eligibility information about yourself or a dependent;
- Presenting an invalid prescription or physician order;
- Misusing a Health Net Member I.D. Card (or letting someone else use it); or
- Failing to notify us of changes in family status that may affect your eligibility or benefits.

If we terminate your membership for cause, you will not be allowed to enroll in a Health Net health plan in the future. We may also report criminal fraud and other illegal acts to the authorities for prosecution.

How to Appeal Your Termination

You have a right to file a complaint if you believe that your coverage is improperly terminated or not renewed. A complaint is also called a grievance or an appeal. Refer to the "If You Have a Disagreement With Our Plan" section for information about how to appeal Health Net's decision to terminate your coverage.

If your coverage is terminated based on any reason other than for nonpayment of subscription charges and your coverage is still in effect when you submit your complaint, Health Net will continue your coverage until the review process is completed, subject to Health Net's receipt of the applicable subscription charges. You must also continue to pay the deductible and copayments for any services and supplies received while your coverage is continued during the review process.

If your coverage has already ended when you submit your request for review, Health Net is not required to continue coverage. However, you may still request a review of Health Net's decision to terminate your coverage by following the complaint process described in the "If You Have a Disagreement With Our Plan" section.

If the person involved in any of the above activities is the enrolled employee, coverage under this plan will end as well for any covered dependents.

If you have a disagreement with our plan

The provisions referenced under this title as described below are applicable to services and supplies covered under this SB/DF. The California Department of Managed Health Care is responsible for regulating health care service plans.

If you have a grievance against Health Net, you should first telephone Health Net at the phone number on the back cover and use the plan's grievance process before contacting the Department. Utilizing this grievance procedure does not prohibit any potential legal rights or remedies that may be available to you. If you need help with a grievance involving an emergency, or a grievance that has not been satisfactorily resolved by Health Net, or a grievance that has remained unresolved for more than 30 days, you may call the Department for assistance.

You may also be eligible for an independent medical review (IMR). If you are eligible for IMR, the IMR process will provide an impartial review of medical decisions made by a health plan related to the Medical Necessity of a proposed service or treatment, coverage decisions for treatments that are experimental or investigational in nature and payment disputes for emergency or urgent medical services. The Department also has a toll-free telephone number **(1-888-HMO-2219)** and a **TDD line (1-877-688-9891)** for the hearing and speech impaired. The Department's Internet Web site <http://www.hmohelp.ca.gov> has complaint forms, IMR application forms and instructions online.

How to file a grievance or appeal:

You may call the Customer Contact Center at the phone number on the back cover or submit a Member Grievance Form through the Health Net website at www.healthnet.com:

You may also write to: *Health Net of California*

Please include all the information from your Health Net identification card as well as details of your concern or problem.

Health Net will acknowledge your grievance or appeal within five calendar days, review the information and tell you of our decision in writing within 30 days of receiving the grievance. For conditions where there is an immediate and serious threat to your health, including severe pain or the potential loss of life, limb or major bodily function, Health Net will notify you of the status of your grievance no later than three days from the receipt of all the required information. For urgent grievances, Health Net will immediately notify you of the right to contact the Department of Managed Health Care. There is no requirement that you participate in Health Net's grievance process prior to applying to the Department of Managed Health Care for review of an urgent grievance.

In addition, you can request an independent medical review of disputed health care services from the Department of Managed Health Care if you believe that health care services eligible for coverage and payment under the plan was improperly denied, modified or delayed by Health Net or one of its contracting providers.

Also, if Health Net denies your appeal of a denial for lack of medical necessity, or denies or delays coverage for requested treatment involving experimental or investigational drugs, devices, procedures or therapies, you can request an independent medical review of Health Net's decision from the Department of Managed Health Care if you meet the eligibility criteria set out in the plan's EOC.

ARBITRATION

If you are not satisfied with the result of the grievance hearing and appeals process, you may submit the problem to binding arbitration. Health Net uses binding arbitration to settle disputes, including medical malpractice. When you enroll in Health Net, you agree to submit any disputes to arbitration, in lieu of a jury or court trial.

Behavioral health services

Health Net contracts with MHN Services, an affiliate behavioral health administrative services company (the Behavioral Health Administrator) which administers behavioral health services through a personalized, confidential and affordable mental disorder and chemical dependency care program.

Contact the Behavioral Health Administrator by calling the Health Net Customer Contact Center at the phone number on the back cover. The Behavioral Health Administrator will help you identify a participating mental health professional, a participating independent physician or a sub-contracted provider association (IPA) within the network, close to where you live or work, with whom you can make an appointment.

Certain services and supplies for mental disorders and chemical dependency may require prior authorization by the Behavioral Health Administrator in order to be covered. No prior authorization is required for outpatient office visits, but a voluntary registration with the Behavioral Health Administrator is encouraged.

Please refer to the plan's EOC for a more complete description of mental disorder and chemical dependency services and supplies, including those that require prior authorization by the Behavioral Health Administrator.

TRANSITION OF CARE FOR NEW ENROLLEES

If you are receiving ongoing care for an acute, serious, or chronic mental health condition from a provider not affiliated with the Behavioral Health Administrator when you enroll with Health Net, we may temporarily cover services provided by that provider, subject to applicable copayments and any other exclusions and limitations of this plan.

Your non-participating mental health professional must be willing to accept the Behavioral Health Administrator's standard mental health provider contract terms and conditions and be located in the plan's service area.

If you would like more information on how to request continued care, or to request a copy of our continuity of care policy, please call the Health Net Customer Contact Center at the phone number on the back cover.

Prescription drug program

Health Net contracts with many major pharmacy chains, supermarket based pharmacies and privately owned neighborhood pharmacies in California. For a complete and up-to-date list of participating pharmacies, please visit our website at www.healthnet.com or call the Health Net Customer Contact Center at the phone number on the back cover.

PRESCRIPTIONS BY MAIL DRUG PROGRAM

If your prescription is for a maintenance medication (a drug that you will be taking for an extended period), you have the option of filling it through our convenient Prescriptions By Mail Drug Program. This program allows you to receive a 90-consecutive-calendar-day supply of maintenance medications. For complete information, call the Health Net Customer Contact Center at the phone number on the back cover.

Tier IV (Specialty Drugs) and Schedule II narcotic drugs (which are drugs that have a high abuse risk as classified by the Federal Drug Enforcement Administration) are not covered through mail order.

THE HEALTH NET ESSENTIAL RX DRUG LIST

This plan uses the Essential Rx Drug List. The Health Net Essential Rx Drug List (or Formulary or the List) is the approved list of medications covered for illnesses and conditions. It was developed to identify the safest and most effective medications for Health Net members while attempting to maintain affordable pharmacy benefits.

We specifically suggest to all Health Net contracting PCPs and specialists that they refer to this List when choosing drugs for patients who are Health Net members. When your physician prescribes medications listed in the Essential Rx Drug List, it ensures that you are receiving a high quality prescription medication that is also of high value.

The Essential Rx Drug List is updated regularly, based on input from the Health Net Pharmacy and Therapeutics (P&T) Committee. The Committee members are actively practicing physicians of various medical specialties and clinical pharmacists. Voting members are recruited from contracting physician groups throughout California based on their experience, knowledge and expertise. In addition, the P&T Committee frequently consults with other medical experts to provide additional input to the Committee. Updates to the Essential Rx Drug List and drug usage guidelines are made as new clinical information and new drugs become available. In order to keep the List current, the P&T Committee evaluates clinical effectiveness, safety and overall value through:

- Medical and scientific publications;
- Relevant utilization experience; and
- Physician recommendations.

To obtain a copy of Health Net's most current Essential Rx Drug List, please visit our web site at www.healthnet.com or call the Health Net Customer Contact Center at the phone number on the back cover.

WHAT IS "PRIOR AUTHORIZATION?"

Some drugs require prior authorization. This means that your doctor must contact Health Net in advance to provide the medical reason for prescribing the medication. You may obtain a list of drugs requiring prior authorization by visiting our website at www.healthnet.com or call the Health Net Customer Contact Center at the phone number on the back cover.

How to request prior authorization:

Requests for prior authorization may be submitted electronically or by telephone or facsimile. Upon receiving your physician's request for prior authorization, Health Net will evaluate the information submitted and make a determination based on established clinical criteria for the particular medication. The criteria used for prior authorization are developed and based on input from the Health Net P&T Committee as well as physician specialist experts. Your physician may contact Health Net to obtain the usage guidelines for specific medications.

If authorization is denied by Health Net, you will receive written communication including the specific reason for denial. If you disagree with the decision, you may appeal the decision.

The appeal may be submitted in writing, by telephone or through e-mail. We must receive the appeal within 60 days of the date of the denial notice. Please refer to the plan's EOC for details regarding your right to appeal.

To submit an appeal:

- Call the Health Net Customer Contact Center at the phone number on the back cover;
- Visit www.healthnet.com for information on e-mailing the Customer Contact Center; or
- Write to: Health Net Customer Contact Center
P.O. Box 10348

WHAT'S COVERED

Please refer to the "Schedule of benefits and coverage" section of this SB/DF for the explanation of covered services and copayments.

This plan covers the following:

- Tier I drugs – Drugs listed as Tier I on the Essential Rx Drug List that are not excluded from coverage (most generic drugs and low cost preferred brand name drugs listed on the Essential Rx Drug List);
- Tier II drugs – Drugs listed as Tier II on the Essential Rx Drug List that are not excluded from coverage (non-preferred generic and preferred Brand Name Drugs, peak flow meters, inhaler spacers, insulin and diabetic supplies when listed in the Essential Rx Drug List);
- Tier III drugs – Drugs listed on the Essential Rx Drug List as Tier III (non-preferred Brand Name Drugs, drugs listed as Tier III Drugs or drugs not listed in the Essential Rx Drug List);
- Tier IV (Specialty Drugs) – typically provided through a Specialty Pharmacy Vendor; and
- Preventive drugs, including smoking cessation drugs, and women's contraceptives.

MORE INFORMATION ABOUT DRUGS THAT WE COVER

- Prescription drug covered expenses are the lesser of Health Net's contracted pharmacy rate or the pharmacy's retail price for covered prescription drugs.
- If a prescription drug deductible (per member each calendar year) applies, you must pay this amount for prescription drug covered expenses before Health Net begins to pay. Diabetic supplies, and preventive drugs, including smoking cessation drugs, and women's contraceptives are not subject to the deductible. After the deductible is met the copayment amounts will apply.

- Prescription drug refills are covered, up to a 30-consecutive-day supply per prescription at a Health Net contracted pharmacy for one copayment. A copayment is required for each prescription. In some cases, a 30-consecutive-calendar-day supply of medication may not be an appropriate drug treatment plan according to the Food and Drug Administration (FDA) or Health Net's usage guidelines. If this is the case, the amount of medication dispensed may be less than a 30-consecutive-calendar-day supply.
- If the pharmacy's retail price is less than the applicable copayment, the member will only pay the pharmacy's retail price.
- Percentage copayments will be based on Health Net's contracted pharmacy rate.
- Mail order drugs are covered a 90-consecutive-calendar-day supply. When the retail pharmacy copayment is a percentage, the mail order copayment is the same percentage of the cost to Health Net as the retail pharmacy copayment.
- Prescription drugs for the treatment of asthma are covered as stated in the Essential Rx Drug List. Inhaler spacers and peak flow meters under the pharmacy benefit are covered when medically necessary. Nebulizers (including face masks and tubing) are covered under "Durable Medical Equipment" and educational programs for the management of asthma are covered under "Patient Education" through the medical benefit. For information about copayments required for these benefits, please see the "Schedule of benefits and coverage" section of this SB/DF.
- Covered preventive drugs include prescribed over-the-counter drugs and prescription drugs that are used for preventive health purposes per the U.S. Preventive Services Task Force A and B recommendations, including smoking cessation drugs. Covered contraceptives are FDA-approved contraceptives for women that are either available over-the-counter or are only available with a prescription. Vaginal, oral, transdermal and emergency contraceptives are covered under this pharmacy benefit. IUD, implantable and injectable contraceptives are covered (when administered by a physician) under the medical benefit. Refer to the plan's EOC for more information.
- Diabetic supplies (blood glucose testing strips, lancets, needles and syringes) are packaged in 50, 100 or 200 unit packages. Packages cannot be "broken" (that is, opened in order to dispense the product in quantities other than those packaged). When a prescription is dispensed, you will receive the size of package and/or number of packages required for you to test the number of times your physician has prescribed for up to a 30-day period. For more information about diabetic equipment and supplies, please see "Endnotes" in the "Schedule of benefits and coverage" section of this SB/DF.
- Self Injectable drugs (other than insulin), including drugs for the treatment of hemophilia, and needles and syringes used with these self-injectable drugs are included under Tier IV (Specialty Drugs), which are subject to Prior Authorization and must be obtained through Health Net's contracted specialty pharmacy vendor. Your PCP or treating Physician will coordinate the authorization and upon approval the specialty pharmacy vendor will arrange for the dispensing of the drugs, needles and syringes. The specialty pharmacy vendor may contact you directly to coordinate the delivery of your medications.
- Tier IV (Specialty Drugs) are specific Prescription Drugs that may have limited pharmacy availability or distribution, may be self-administered orally, topically, by inhalation, or by injection (either subcutaneously, intramuscularly or intravenously) requiring training or clinical monitoring, be manufactured using biotechnology, or have high cost as established by Covered California. Tier IV (Specialty Drugs) are identified in the Essential Rx Drug List with "SP", require Prior Authorization from Health Net and may be required to be dispensed through the Specialty Pharmacy Vendor to be covered. Tier IV (Specialty) Drugs are not available through mail order.
- All Tier IV (Specialty Drugs) require Prior Authorization from Health Net and may be required to be dispensed through the specialty pharmacy vendor to be covered. Tier IV (Specialty Drugs) are not available through mail order.

WHAT'S NOT COVERED (EXCLUSIONS AND LIMITATIONS)

Services or supplies excluded under pharmacy services may be covered under the medical benefits portion of your plan. In addition to the exclusion and limitations listed below, prescription drug benefits are subject to the plan's general exclusions and limitations. Consult the plan's EOC for more information.

- Allergy serum is covered as a medical benefit. See "allergy serum" benefit in the "Schedule of benefits and coverage" for details;
- Coverage for devices is limited to vaginal contraceptive devices, peak flow meters, spacer inhalers and diabetic supplies. No other devices are covered even if prescribed by a participating physician;

In such a case, the amount of medication dispensed may be less than a 30-consecutive-calendar-day supply. If medically necessary, your physician may request a larger quantity from Health Net;
- Medical equipment and supplies (including insulin), that are available without a prescription are covered when prescribed by a physician for the management and treatment of diabetes or for preventive purposes in accordance with the U.S. Preventive Services Task Force A and B recommendations or for female contraception as approved by the FDA. Any other nonprescription drug, medical equipment or supply that can be purchased without a prescription drug order is not covered even if a physician writes a prescription drug order for such drug, equipment or supply. However, if a higher dosage form of a prescription drug or over-the-counter (OTC) drug is only available by prescription, that higher dosage drug will be covered. If a drug that was previously available by prescription becomes available in an OTC form in the same prescription strength, then any prescription drugs that are similar agents and have comparable clinical effect(s) will only be covered when medically necessary and prior authorization is obtained from Health Net;
- Prescription drugs filled at pharmacies that are not in the Health Net pharmacy network or are not in California except in emergency or urgent care situations;
- Prescription drugs prescribed by a physician who is not a member physician or an authorized specialist are not covered, except when the physician's services have been authorized, or because of a medical emergency condition, illness or injury, for urgently needed care or as specifically stated;

This is only a summary. Consult the plan's EOC to determine the exact terms and conditions of your coverage.

Pediatric dental program

All of the following services must be provided by your selected Health Net Participating Primary Dental Provider in order to be covered. Refer to the "Pediatric Dental Services" portion of "Exclusions and Limitations" for limitations on covered pediatric dental services.

Subscribers must select a single Primary Dentist from the Participating Dentist Directory for their area for themselves and their enrolled Family Members (i.e., enrolled Family Members must use the same Primary Dentist). Call the Customer Contact Center at the number on your Health Net ID Card for a listing of participating dental providers. Each Member's Primary Dentist is responsible for the provision, direction and coordination of the Member's complete dental care. Members are required to select a Primary Dentist at the time of enrollment. If you do not make this selection and notify Health Net, Health Net will assign a Primary Dentist within close proximity to the Subscriber's primary residence. The assignment will be made within 31 days from the Member's commencement of coverage or 31 days after receiving complete enrollment information, whichever is later.

When you receive Benefits from your selected Primary Dentist you only pay the applicable Copayment amount noted below. You do not need to submit a claim. Health Net arranges for the provision of dental services by contracting with Participating Dentists to serve you in an organized and cost-effective manner.

If you have purchased a supplemental pediatric dental benefit plan, pediatric dental benefits covered under this plan will be paid first, with the supplemental pediatric dental benefit plan covering non-covered services and or cost sharing as described in your supplemental pediatric dental benefit plan coverage document.

IMPORTANT: If you opt to receive dental services that are not covered services under this plan, a participating dental provider may charge you his or her usual and customary rate for those services. Prior to providing a patient with dental services that are not a covered benefit, the dentist should provide to the patient a treatment plan that includes each anticipated service to be provided and the estimated cost of each service. If you would like more information about dental coverage options, you may call the Customer Contact Center at the telephone number on your Health Net dental ID Card or your insurance broker. To fully understand your coverage, you may wish to carefully review this evidence of coverage document.

Administration of these pediatric dental plan designs comply with requirements of the pediatric dental EHB benchmark plan, including coverage of services in circumstances of medical necessity as defined in the Early Periodic Screening, Diagnosis and Treatment (EPSDT) benefit for pediatric dental services.
