# CommunityCare HMO

*Savings for employers. Benefits that put health first for employees.*

CommunityCare HMO Network has over 6,514 physicians and specialists, as well as 53 hospitals.

Health Net of California, Inc. (Health Net) has a new option for small business groups in L.A. and Orange counties who want to offer a robust Gold- or Silver-level plan – and save! CommunityCare HMO.

Our newest tailored network option, CommunityCare HMO connects employees with a choice of doctors from our CommunityCare HMO tailored network. Plus, we include MinuteClinics (available at some CVS locations) as a convenient resource to get care for common illnesses, wellness screenings, vaccinations, and more.

What's different is that there is no participating provider group (PPG) requirement. Members choose a primary care physician (PCP) from the CommunityCare network to coordinate their care. A PCP can refer to any specialist in the CommunityCare network.

### More ways CommunityCare HMO puts health first

- A no-cost preventive care visit each year (like with all ACA-compliant health plans).
- \$0 copayment for the first doctor visit (for whatever reason). For any lab or other services, cost-sharing applies.
- Low copayments so employees pay less out-of-pocket.
- \$0 deductible and \$5 copayment for generic medications.

### More options for employers

CommunityCare HMO can be paired with any one or more of our other HMO plans to offer employees a selection. Minimum employee participation requirements do apply.
