

# Small Group 2.0

## Plan Designs

*Big solutions for all-size small groups*

**Carol Kim**  
Health Net

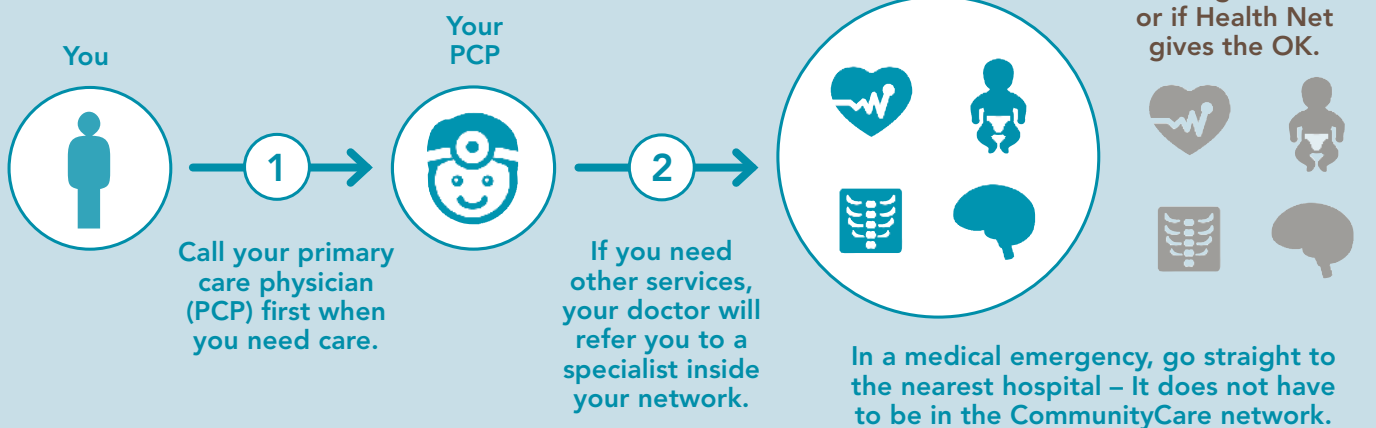

Just because your clients are moving to small group coverage doesn't mean they have to settle for a small solution! One of the reasons we created Small Group 2.0 was to meet the needs of all-size companies that now fall under California's 1–100 definition of small group.

For those on grandfathered plans, Small Group 2.0 gives them choices as they transition to plans compliant with the Affordable Care Act (ACA).

### HMOs

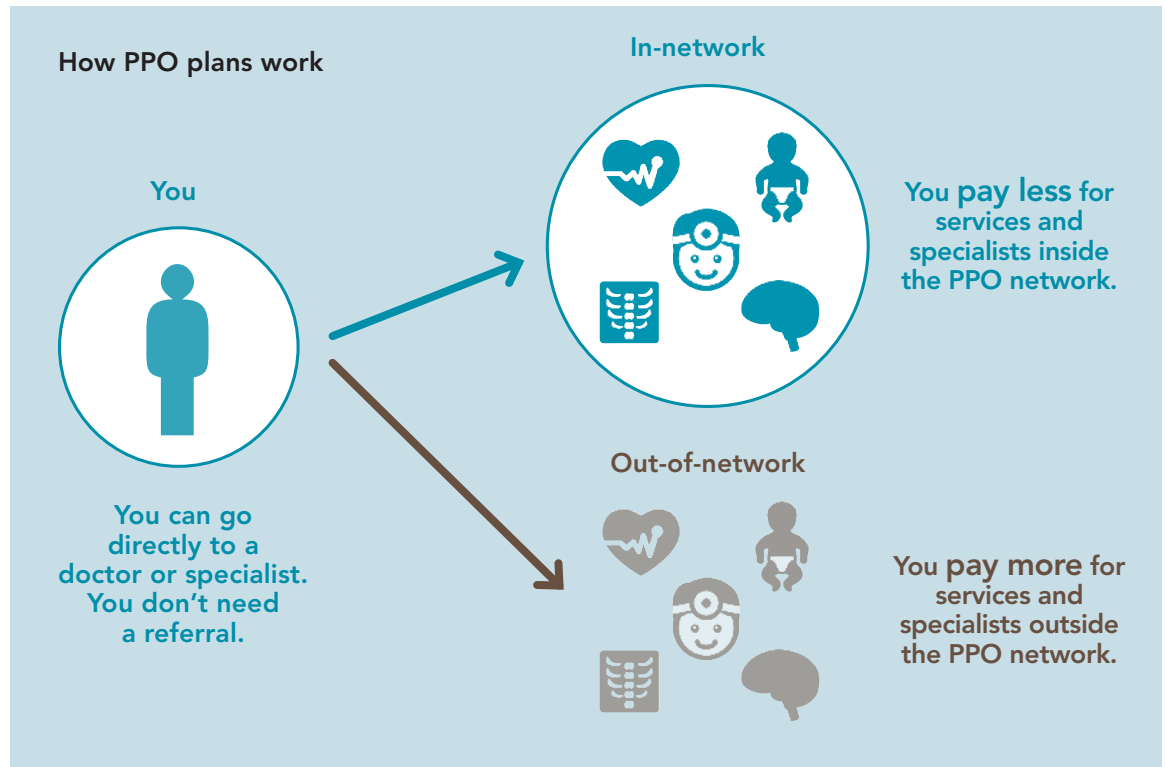

Select an HMO plan design, then pair it with any of the HMO networks we offer in your location. The plan design stays the same. Simple.

#### How HMO plans work

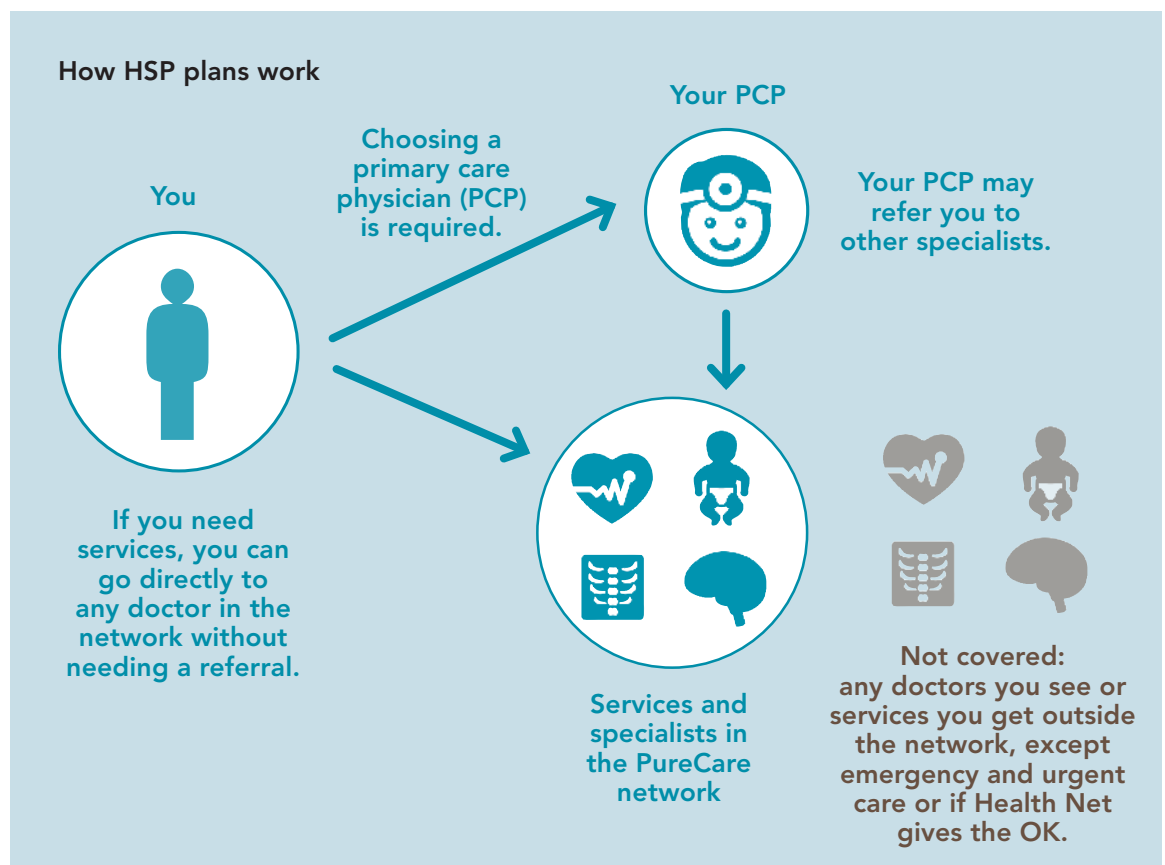

## PPOs

Choose from PPO plans in every metal level.

## HSPs

Health Net's health care service plans – or HSPs – are similar to an HMO but with more flexibility. Our HSP plans come with our PureCare network.

*EPO plans*

Health Net offers exclusive provider organization (EPO) plans, which come with our PureCare One network. Members choose a primary care physician from the network, and have the choice to self-refer to specialists in the network.
