CommunityCare HMO

Gives You 3 Free Ways
to Put Your Health First

Geoffrey Gomez,
Health Net
*We're here to support
your health goals.*

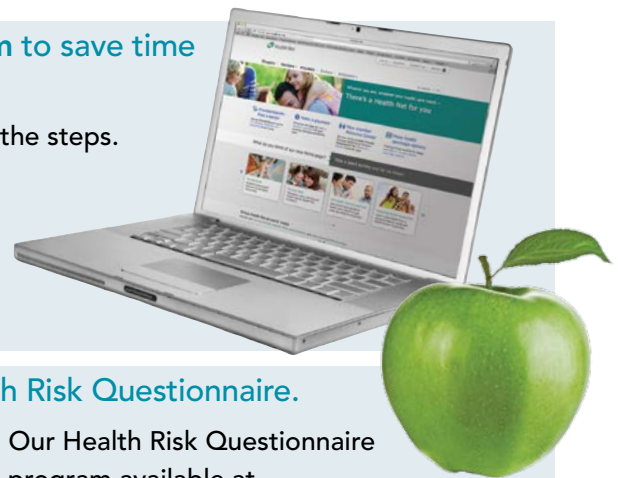

Here at Health Net, we're all about health. Yours! That's why your CommunityCare HMO plan from Health Net of California, Inc. (Health Net) gives you more ways to invest in your health – for less!

- 1** Pay \$0 for your first PCP visit – and prepare for a healthy year.
- Seeing your doctor each year gives you an overview of your health plus steps you can take to be your healthiest.
- The first time you see your primary care physician (PCP), you have a \$0 copayment. For any lab or other services, you'll pay the copayment tied to those services.
 - Your PCP can refer you to any specialist, if you need one, in the CommunityCare network.
- Plus, if you need medication, you pay just \$5 for generics.

Tip! Stay in-network to avoid surprise costs.

Be sure to go to a PCP in the CommunityCare HMO network. Your plan only covers services that you get in-network (except for emergency and urgent care, or if Health Net pre-approves them).

- 2** Register at www.healthnet.com to save time and build healthy habits.
- Click the *Register* button and follow the steps. With your account, you can:
- See your PCP information.
 - Review your benefits and claims history.
 - Try online wellness programs, and lots more.

- 3** Rate your health with our Health Risk Questionnaire.
- Know where to focus on your health! Our Health Risk Questionnaire (HRQ) is part of our Decision Power® program available at www.healthnet.com. You can also use Decision Power to get health advice and care alerts, try online coaching and talk to a nurse anytime.
