# Definition of Terms

**Participating Physician Group (PPG)** – a group of physicians, who are organized as a legal entity, that has an agreement in effect with Health Net to provide medical care to Health Net members. They are sometimes referred to as a “contracting physician group” or “a medical group.” An individual practice association may also be a physician group.

**Primary Care Physician (PCP)** – a physician who coordinates and controls the delivery of covered services and supplies to the member. PCPs include general and family practitioners, internists, pediatricians, and obstetricians/gynecologists.

**Participating Hospitals** – A member’s PCP may find it necessary to refer the member to a hospital for further care on either an inpatient or outpatient basis. The member will usually be hospitalized where the PCP has admitting privileges. Log in to [www.healthnet.com/providersearch](http://www.healthnet.com/providersearch) for a list of hospitals where the PCP has admitting privileges. **Note:** The PCP must first be contacted for initial treatment and consultation before you receive any care or treatment through a hospital. Admission to, and treatment rendered by, any hospital must be authorized by your selected PCP. **If you feel that you are experiencing an emergency, call 911 immediately or go to the nearest ER.**
