Health Net®

Nondiscrimination Notice

Health Net Health Plan of Oregon, Inc. (Health Net) complies with applicable federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. Health Net does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex.

Health Net:

- Provides free aids and services to people with disabilities to communicate effectively with us, such as qualified sign language interpreters and written information in other formats (large print, accessible electronic formats, other formats).
- Provides free language services to people whose primary language is not English, such as qualified interpreters and information written in other languages.

If you need these services, contact Health Net's Customer Contact Center at 1-888-802-7001 (TTY: 711).

If you believe that Health Net has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, you can file a grievance by calling the number above and telling them you need help filing a grievance; Health Net's Customer Contact Center is available to help you.

You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights, electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at: U.S. Department of Health and Human Services, 200 Independence Avenue SW, Room 509F, HHH Building, Washington, DC 20201, 1-800-368-1019 (TDD: 1-800-537-7697).

Complaint forms are available at <http://www.hhs.gov/ocr/office/file/index.html>.

At Health Net, We Know You Need Information to Make Health Care Decisions That Are Right for You.

This directory of providers is just one of several resources we give you to explain how your health plan works. It lists which physicians and other providers are covered by your particular plan, so you can make informed choices. Other documents, such as your plan documents, provide additional details about the actual services and care that are covered. Complete and current information about your plan's providers is also available on our website.

PPO Plan? This directory is for you.

This directory is for members whose coverage is through a Health Net PPO or PPO-related plan such as HDHP (HSA) plans. We publish other directories specifically for our members enrolled in our other plans. If you are not sure whether this directory applies to you, or if you have questions about your coverage, call our Customer Contact Center.

Your preferred provider organization (PPO) plan gives you two levels of benefits and many choices of physicians and other health care providers. You receive a specific level of benefit or coverage based on the physician/provider network from which you receive covered services. Think of your PPO as two plans in one:

- **PPO network** benefits apply when you receive covered services from physicians and providers in our PPO network.
- **Out-of-network** benefits apply when you receive covered services from physicians or providers who do not participate in any of our networks.

This directory and the regularly updated ProviderSearch feature on our website will help you determine which physicians and providers are in our PPO network.

Using this directory

This directory is divided into the following:

PPO Network Health Care Providers

PPO Network Hospitals and Urgent Care Facilities

Ancillary Providers

Pharmacies

Provider Index

Use this guide to obtain the following details: name, address, phone number, and specialty (if applicable). If a physician or provider practices at more than one location or is a member of a clinic, each location is listed after the physician or provider's name.

If the provider address of the location at which you wish to obtain services is not listed, please check the Health Net website, or call the provider office location to verify that they are a participating provider.

Keep these guidelines in mind as you use this directory

- **Use this directory along with your plan documents and materials.** Your plan documents will help you understand how your health plan works and what some of your requirements and responsibilities are. We encourage you to review your plan documents for information about using your benefits.
- **Be aware that this directory may change at any time.** We cannot guarantee the continuing participation of any one doctor, hospital, clinic, or other provider. Some physicians and providers listed at the time this directory was printed may no longer be part of a network or may have switched from one network to another. Others may have joined after this directory was printed. Log in to **www.healthnet.com**, click on *ProviderSearch*, then follow the prompts for a current provider listing. Before you schedule an appointment with any physician or provider, be sure to confirm that the provider is still participating with us and accepting new patients.
- **Some physicians and providers may not be accepting new patients.** To confirm that a physician or provider is accepting new patients, contact the physician or provider's office directly.

Visit our website for regularly updated information

Because our list of participating physicians and providers may change at any time, we make daily updates to the provider directory on our website. For the most up-to-date listing, log in to www.healthnet.com, click on *ProviderSearch* and follow the prompts. Remember, it's always a good idea to confirm with the physician or provider's office that he or she is accepting new patients.

Choosing a physician to coordinate your health care

Your PPO plan does not require that you select a primary care provider to coordinate your health care. However, you may wish to consider choosing a member of our PPO network to serve as your main doctor and primary coordinator for health care. Physicians who typically focus on this aspect of care include medical doctors and doctors of osteopathy specializing in family practice, internal medicine or pediatrics, and may include doctors who specialize in obstetrics/gynecology. You receive your plan's PPO benefits when you receive covered services from a PPO network physician and follow any applicable guidelines, such as obtaining prior authorization when it is required.

Women's health care providers

Practitioners trained to meet women's health care needs are called women's health care providers (WHCPs). These professionals can be obstetricians, gynecologists, family practitioners, internists, advanced practice registered nurse practitioners specializing in women's health, or certified nurse midwives.

Hospital services

Your primary doctor, main health care provider or participating specialist will arrange most of the non-emergency hospital services that you need and may help ensure that they are provided at a participating hospital. Keep in mind that you will generally pay less when you go to a participating hospital. You will also want to ensure that all of the physicians and other health care providers involved in your treatment and care during your hospital stay are participating physicians and providers in Health Net's network. If you have any questions about a particular physician or provider, call our Customer Contact Center.

Remember that many hospital services and procedures require prior authorization. Review your plan documents, talk with your physician or main health care provider, or call us when you want to confirm whether a service or procedure needs to be authorized before it is provided. You are ultimately responsible for ensuring that your physician or provider obtains any required authorizations.

Prescription drug benefits

If your plan includes supplemental prescription drug benefits, you must have your non-emergency prescriptions filled at a participating pharmacy or through our mail-order service in order to receive benefits. The list of participating pharmacies is subject to change as pharmacies withdraw and others join. To confirm a specific pharmacy's participation, call our Customer Contact Center.

Designated specialized services

We have contracted with certain facilities and providers for designated specialized services. In most cases, your physician or main health care provider will direct you to the appropriate facility. To ensure that you have chosen an appropriate facility or provider for these designated specialized services,

refer to the following information, call our Customer Contact Center or email us through the *Contact Us* feature on www.healthnet.com.

To ensure that you have chosen an appropriate provider for designated specialty services, call the provider's office to ask if the specialist can provide services at one of the designated specialty facilities. These providers and specialized services are subject to change.

- **Transplant services** – We contract with a number of regional transplant centers. All transplant evaluations and services are handled on a case-by-case basis and must be prior authorized through our case management program.
- **Mental health and chemical dependency services** – We cover a wide range of mental health and chemical dependency conditions through our mental health care provider, MHN.

MHN has one of the largest networks of mental health providers and facilities in our service area. The network includes licensed psychologists, psychiatrists, social workers, counselors, marriage and family therapists, psychiatric mental health nurse practitioners, and numerous inpatient and residential facilities. To locate a provider, log in to www.healthnet.com, click on *ProviderSearch* and follow the prompts.

All mental health and chemical dependency services must be prior authorized by MHN –

You or your physician or main health care provider can obtain this prior authorization by calling MHN at the number located on the back cover. Emergency care may be covered if MHN is contacted within 24 hours. Remember, although you do not need a referral from your physician/provider to arrange an appointment with an MHN provider, your MHN provider can partner with your physician/provider to offer you the most complete care possible.

- **Home health services, medical equipment and supplies** – We cover in-home medical equipment, diabetic blood glucose meters, home health, hospice, home infusion, self-injectables, and home oxygen services when any such benefit or service is covered by a member's plan.

We utilize designated providers for these services. For prior authorization or general information and assistance, call our Customer Contact Center.

- **Specialty care providers** – Medical services for certain conditions or certain treatment procedures may be provided only by participating providers that we designate as specialty care providers. We shall have the right to require a member to use a designated specialty care provider as a condition to receive coverage as outlined in your plan documents.

Alternative care providers

We maintain a separate directory of our participating providers for acupuncture, chiropractic services, massage therapy, and naturopathic medicine. You can log in to www.healthnet.com, click on *ProviderSearch* and follow the prompts.

Vision providers

We maintain a separate directory of providers who participate in our Vision plan. If your benefits include optional vision coverage, you can log in to www.healthnet.com, click on *ProviderSearch* and follow the prompts.

Your resources for health and help

This provider directory is one of several resources connecting you with us. We designed this directory, your plan documents and other materials to help you get real value from your health plan. We encourage you to become familiar with all of your health plan documents. Keep them in a convenient place so that they are readily available whenever you have a question about your coverage.

Of course, let us know any time you have a question about your benefits or the information in this directory or other member materials. You can get in touch with us through the contact information listed on the back cover of this directory.

We have contracted with certain facilities for designated specialized services, such as transplant, home health services, and mental health and chemical dependency services. To ensure that you have chosen an appropriate facility for these designated specialized services, call our Customer Contact Center at the number listed on the back of the Provider Directory. Call the providers office to ask if the specialist can provide services at one of the designated specialty facilities.
