the most up-to-date listing.

¹MinuteClinics are not located in Kern or San Bernardino counties.

The CVS MinuteClinic is a health care facility, generally inside CVS/pharmacy stores, which is designed to offer an alternative to a physician's office visit for the unscheduled treatment of non-emergency illnesses or injuries such as strep throat, pinkeye or seasonal allergies.

CVS MinuteClinic services

Preventive care services that may be obtained at a CVS MinuteClinic include services such as:

- Vaccinations;
- Health condition monitoring for asthma, diabetes, high blood pressure, or high cholesterol; and
- Wellness and preventive services including, but not limited to, asthma, cholesterol, diabetes and blood pressure screenings, pregnancy testing, and weight evaluations.

In addition, the CVS MinuteClinic also provides non-preventive care services such as the evaluation and diagnosis of:

- Minor illnesses, including flu, allergy or sinus symptoms, body aches, and motion sickness prevention;
- Minor injuries, including blisters, burns, sprains (foot, ankle, or knee), and wounds and abrasions; and
- Minor skin conditions such as minor infections, rashes, or sunburns, wart treatment, or poison ivy.

You will receive a written visit summary at the conclusion of each CVS MinuteClinic visit. With your permission, summaries of your CVS MinuteClinic visit, regardless of visit type, are sent to your primary care physician. If you require a non-emergent referral to a specialist, you will be referred back to your primary care physician for coordination of such care.

You do not need prior authorization or a referral from your primary care physician or contracting physician group in order to obtain access to CVS MinuteClinic services. However, a referral from the contracting physician group or primary care physician is required for any specialist consultations.

Services or supplies obtained from a CVS MinuteClinic that are not specified as covered in your Evidence of Coverage are excluded under this Plan. CVS MinuteClinics are not intended to replace your primary care physician or specialist physician as your primary source of regular monitoring of chronic conditions, but MinuteClinics can, for example, provide a blood sugar test for diabetics, if needed. Certain limitations or exclusions may apply. For additional information about CVS MinuteClinics, please refer to the plan's EOC or contact the Health Net Member Services Department at the telephone number on your Health Net ID card.

For additional information about CVS MinuteClinic services and locations, please visit www.minuteclinic.com.
