Section 1 –

Introduction

This directory provides a list of Health Net Medicare Advantage plan providers. To get detailed information about your health care coverage, please see your *Evidence of Coverage*.

You will have to choose one of our plan providers that are listed in this directory to be your Primary Care Physician (PCP). The term “PCP” will be used throughout this directory. Generally, you must get your health care coverage from your PCP. As a member of Health Net Medicare Advantage, you will have a Primary Care Physician who coordinates all of your care. Your Primary Care Physician is a health care professional who is trained to give you basic care. He or she is responsible for providing or coordinating covered services while you are a member of Health Net Medicare Advantage.

When you enroll in Health Net Medicare Advantage, you will select a Health Net Participating Physician Group from our network. You’ll also choose a Primary Care Physician from this Health Net Participating Physician Group. This Health Net Medicare Advantage participating physician directory is a list of all Health Net Participating Physician Groups (and their affiliated Primary Care

Physicians and hospital affiliations). As a Health Net Medicare Advantage member, all of your routine health care is provided and arranged by your Primary Care Physician. Your specialty care, X-rays, laboratory tests, therapy, prescription medications, hospital admissions and follow-up care will also be provided, authorized or coordinated by your Primary Care Physician. If you go to a doctor, hospital or other provider without the approval of your Primary Care Physician – except in an emergency or when you need urgent care, out-of-area renal dialysis, or certain gynecological care or other self-referred services – you will be responsible for paying any charges for these services. Neither Medicare nor Health Net will pay for non-emergency services or non-urgently needed care without the prior authorization of your Primary Care Physician.

The “plan providers” listed in this directory have agreed to provide you with your health care coverage. You may go to any of our plan providers listed in this directory; however, some services may require a referral. If you have been going to one plan provider, you are not required to continue going to that same provider. In some cases, you may get covered services from non-plan providers. Even though your Primary Care Physician is trained to handle most of your common health needs, there may be times when he or she feels you need more specialized treatment. In that case, you may receive a referral (written permission) to see a

specialist. Specialists are doctors who provide health care services for a specific disease or part of the body. Examples include oncologists (care for cancer patients), cardiologists (care for the heart) and orthopedists (care for bones).

Please refer to your *Evidence of Coverage* (EOC) for further information.
