

# California

# Essential Drug List

The Essential Drug List (formulary) includes a list of drugs covered by Health Net. The drug list is updated at least monthly and is subject to change. All previous versions are no longer in effect. You can view the most current drug list by going to our website at [www.healthnet.com](http://www.healthnet.com).

**For California Individual & Family Plans:**

[https://ifp.healthnetcalifornia.com/Pharmacy\\_Information/drug\\_lists.html](https://ifp.healthnetcalifornia.com/Pharmacy_Information/drug_lists.html)

**For Small Business Group:**

[https://www.healthnet.com/portal/shopping/content/iwc/shopping/groups/small/drug\\_lists.action](https://www.healthnet.com/portal/shopping/content/iwc/shopping/groups/small/drug_lists.action)

Select [Health Net Small Business Group – Formulary \(pdf\)](#).

**NOTE:** To search the drug list online, open the (pdf) document. Hold down the “Control” (Ctrl) and “F” keys. When the search box appears, type the name of your drug and press the “Enter” key. If you have questions or need more information call us toll free.

**California Individual & Family Plans (off-Exchange)**

If you have questions about your pharmacy coverage call Customer Service at [1-800-839-2172](tel:1-800-839-2172)

**California Individual & Family Plans (on-Exchange)**

If you have questions about your pharmacy coverage call Customer Service at [1-888-926-4988](tel:1-888-926-4988)

*Hours of Operation*

8:00am – 7:00pm Monday through Friday

8:00am – 5:00pm Saturday

**Small Business Group**

If you have questions about your pharmacy coverage call Customer Service at [1-800-361-3366](tel:1-800-361-3366)

*Hours of Operation*

8:00am – 6:00pm Monday through Friday

# Welcome to Health Net

## What If I Have Questions Regarding My Pharmacy Benefit?

If you have questions about your pharmacy coverage contact Customer Service at the phone number listed on your Health Net ID card or on the cover of this book. Customer Service can help you with questions about your prescription drug benefits, including, but not limited to:

- information about drugs covered under the medical benefit
- the processes for submitting an exception request, requesting prior authorization and step therapy exceptions
- actual dollar amounts of cost sharing for drugs including drugs subject to coinsurance

## What is the Drug List?

The drug list is a list of covered drugs used to treat common diseases or health problems. The drug list is selected by a committee of doctors and pharmacists who meet regularly to decide which drugs should be included. The committee reviews new drugs and new information about existing drugs and chooses drugs based on:

- Safety
- Effectiveness
- Side effects
- Value (if two drugs are equally effective, the less costly drug will be preferred)

## How do I find a drug in the Drug List?

You can search for a drug by using the search tool, alphabetical index or by medical condition. There are three ways to find out if your drug is covered.

**Search Tool:** Open the List of Drugs (PDF). Hold down the “Control” (Ctrl) and “F” keys. When the search box appears, type the name of your drug. Press the “Enter” key.

**Alphabetical Index:** The index at the end of the PDF lists the names of generic and brand name drugs from A to Z. Once you find a drug name, go to the page number listed to see if the drug is covered.

**Therapeutic category:** The drugs are grouped into therapeutic categories. The categories may be grouped the class to which the drug belongs. If you know what therapeutic category your drug is in look through the list to find the category. Then look under the category for your drug.

If a generic equivalent for a brand name drug is not available in the market or not covered, the generic drug will not be listed separately. The presence of a drug on the drug list does not guarantee that your doctor will prescribe the drug for a particular medical condition.

## How are the drugs listed in the categorical list?

A drug is listed alphabetically by its brand and generic names in its therapeutic category and class.

Example:

<b>DERMATOLOGICALS</b>
<b>Antifungals - Topical</b>
ALEVAZOL ( <i>clotrimazole (topical)</i> ) OINT 1 %

The generic drug name for a brand drug is included after the brand name in parentheses and all lowercase italicized letters.

**Brand Drug Example:** MAVYRET (*glecaprevir-pibrentasvir*) TABS

If a generic equivalent for a brand name drug is both available and covered, the generic drug will be listed separately from the brand name drug in all lowercase italicized letters.

**Generic Drug Example:** *terbutaline sulfate tabs*

If a generic drug is marketed under a proprietary, trademark-protected brand name, the brand drug will be listed after the generic name in parentheses and regular typeface with the first letter of each word capitalized.

**Generic Drug Marketed Under A Brand Name Example:** *levothyroxine sodium* (Levoxyl) TABS

### How much will I pay for my drugs?

To see how much you will pay for a drug, check the abbreviations in the Drug Tier column on the formulary. The copayment or coinsurance for each tier is defined in your Summary of Benefits or other plan documents.

Drug Class/Plan	Benefit Phase	Maximum Cost Share	Days Supply
Oral Cancer Drugs Only	Deductible met	\$200	30 days
All Other (non-oral cancer) Drugs	Deductible met	\$250	30 days
Bronze Plan Members	Deductible met	\$500	30 days

Below is a description for each tier.

<i>Tier</i>	<i>Description</i>
1	Drugs in this tier include generic drugs and low-cost preferred brand drugs.
2	Drugs in this tier are higher cost generic drugs and preferred brand drugs
3	Drugs in this tier are non-preferred brand drugs, brand drugs with generic equivalents on a lower tier, or drugs that have a preferred alternative at a lower tier.
4 or SP	Tier 4 or Specialty Drugs include drugs that are made using biotechnology, drugs that must be distributed through a specialty pharmacy, drugs that require special training for self-administration, or drugs that require regular monitoring of care by a pharmacy, and drugs that cost more than six hundred dollars for a one-month supply.
GP	Generic drugs are preferred. To get a brand drug that has a generic available, your doctor must request prior authorization to show medical necessity. If we approve the request, the drug may be covered at a higher copayment. Refer to your plan documents for coverage details.

NF	The NF next to a drug (including brands with a generic available) means the drug is not covered on Health Net’s Formulary. Your doctor must request authorization from Health Net and show medical necessity for the drug to be covered.
PV	Includes preventive benefit drugs, including contraceptives, covered at no cost to members under the Affordable Care Act. A deductible does not apply.

### Are there any limits on my drug coverage?

Some drugs have limits on coverage. The table below provides a description of abbreviations that may appear in the Limits column on the drug list:

<i>Abbreviation</i>	<i>Definition</i>	<i>Description</i>
AL	Age Limit	These drugs may require prior authorization if your age does not fall within manufacturer, FDA, or clinical recommendations.
AC	Anti-cancer	These oral cancer drugs are subject to a maximum \$200 copayment for a one-month supply, after any deductible has been met, per state law (or \$600 maximum for a three-month supply through mail order).
LA	Limited Access	Some drugs may be subject to limited access or restricted access. This means that a drug may only be available at select pharmacies. Limited access may be due to the following reasons: <ul style="list-style-type: none"> <li>• The FDA or the manufacturer has restricted distribution of a drug to certain facilities, pharmacies or prescribers, or</li> <li>• Certain drugs require special handling, coordination of care, or patient education that cannot be provided at a retail pharmacy.</li> </ul> If the drug is approved, we will let you know how to get limited access drugs.
PA	Prior Authorization	This drug requires prior authorization. This means that you or your prescriber must get approval from us before you fill your prescription. If you don’t get approval, we may not cover the drug
QL	Quantity Limit	These drugs have a limit on the amount that will be covered. Your doctor must request approval for a higher quantity of the drug from Health Net. Health Net covers a 12-month supply when dispensed at one time of all self-administered hormonal contraceptives on the Formulary.
RX/OTC	Prescription & Over-the-Counter (OTC)	Certain drugs are available both in a prescription form and in an OTC form. Only prescription drugs are covered by your plan with the exception of some insulins, insulin supplies and some covered preventive drugs. OTC drugs on the drug list, including OTC preventive drugs and contraceptives, require a prescription to be covered.

ST	Step Therapy	Step therapy is when you are required to use one drug before another, in a stepwise fashion. Unless an exception is made, one or more preferred drugs must be tried first before progressing to a drug that is subject to step therapy.
----	--------------	---

**How often does the Drug List change?**

The formulary will be updated with changes on a monthly basis. The types of changes may include the following:

- Removal of a drug or dosage form of a drug from the formulary;
- Any change in tier placement of a drug that results in an increase in cost sharing;
- Adding or changing utilization management procedures applicable to a drug.

If these changes occur, you will be notified at least 60 days in advance of the change, unless the drug is removed for safety reasons.

**How can I get prior authorization or an exception to the rules for drug coverage?**

Requests for prior authorization may be submitted electronically or by phone at the phone number shown on your Health Net ID card or by fax at 1-800-314-6223. Once your doctor’s request is received, we will notify your doctor of our decision within 72 hours. If Health Net fails to respond to a completed prior authorization or step therapy exception request within 72 hours of receiving a non-urgent request and 24 hours of receiving a request based on exigent circumstances, the request is deemed approved and the health insurer may not deny the request thereafter.

If your doctor believe that waiting 72 hours for a standard decision could seriously harm your health, your doctor can ask for a fast (expedited) decision. This applies only to requests for drugs that you have not already received. We must make expedited decisions within 24 hours after we get your doctor’s supporting statement.

If we approve your drug’s exception, the approval continues until the end of the plan year. To keep the exception in place for the plan year, you must remain enrolled in our plan, your doctor must continue to prescribe your drug, and your drug must be safe for treating your condition

In some cases, our plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. This is called step therapy. Step therapy is when you are required to use one drug before another, in a stepwise fashion. The required first step drug or preferred drug is a proven, cost-effective medication. Unless an exception is made, one or more preferred drugs must be tried before progressing to a drug that is subject to step therapy. You or your doctor can request an exception if your health may be harmed by waiting. Your doctor must submit a supporting statement to us explaining why you need the drug. You or your doctor may appeal the denial of an exception request. The denial documents provide more information on appeal rights and procedures if there is a medical need to use a second step drug without trying a first step drug, an exception to coverage may be requested by the prescriber. A request for an exception to a step therapy requirement may be submitted in the same manner as a request for prior authorization. The request shall be treated in the same manner, and shall be responded to in the same manner, as a request for prior authorization for prescription drugs. If you have already tried and failed the preferred drug(s), or if you are already taking a drug that is subject to step therapy when you switch to enrolled in a Health Net plan, you will not have to undergo step therapy and the drug will be approved for coverage when medically necessary.

If a drug is not on the drug list, and is not specifically excluded from coverage, your doctor can ask for an

exception. To request an exception, your doctor can submit a prior authorization request along with a supporting statement explaining why you need the drug. Requests for prior authorization may be submitted electronically or by telephone or fax. If we approve an exception for a drug that is not on the drug list, the non-preferred brand drug tier (Tier 3) or Specialty (Tier 4) copayment applies.

Health Net will cover all medically necessary drugs. If Health Net fails to respond to a completed prior authorization or step therapy exception request within 72 hours of receiving a non-urgent request and 24 hours of receiving an expedited request, the request will be approved and Health Net may not deny the request thereafter.

### **Are all contraceptives covered?**

Contraceptive benefits include coverage for a variety of U.S. Food and Drug Administration (FDA)-approved prescription contraceptive methods. If your doctor determines that none of the covered methods on the drug list or if a covered therapeutic equivalent of a drug, device, or product is not available, and is medically necessary for you, Health Net will provide coverage. Coverage is subject to limitations and restrictions. Prior authorization or step therapy may be required for some other FDA-approved prescription contraceptive drugs, devices, or products prescribed by your doctor.

### **What blood glucose supplies covered?**

Specific brands of blood glucose monitors, blood glucose testing strips, lancets, ketone testing strips, pen delivery systems for injecting insulin and insulin needles and syringes are covered on the drug list. A prescription from your doctor is required to obtain these from a pharmacy. Insulin pumps and all related necessary supplies, podiatric devices to prevent or treat diabetes-related complications and visual aids, excluding eyewear, to assist the visually impaired with proper dosing of insulin are covered under the medical benefit.

### **What drugs are under my medical benefit?**

Drugs that are not considered self-injectable and are administered by your doctor will be covered under your medical benefit. If your doctor does not have the drug, your doctor will give you instructions on where you can receive the drug. Certain drugs that are self-administered are covered under your pharmacy benefit. Refer to your *Evidence of Coverage* or *Certificate of Insurance* for coverage information and exceptions.

### **Can I go to any pharmacy?**

Except in emergency and urgent situations, Health Net does not cover drugs dispensed by non-network pharmacies. Health Net contracts with most U.S. chain pharmacies and many independent pharmacies. These pharmacies are called in-network pharmacies. To find an in-network pharmacy near you, visit our website at [<https://IFP.healthnetcalifornia.com>] or call us at the telephone number on your Health Net ID card or listed on the front cover of this book.

Some injectable and high cost drugs are considered specialty drugs. These drugs must be filled at an in-network specialty pharmacy. Specialty drugs are noted on the drug list in the Requirements/Limits column with the abbreviation “LA” or a statement indicating the drug must be dispensed from a network specialty pharmacy. After your drug has been approved, we will arrange for the specialty pharmacy to contact you to set up delivery.

### **Can I use a mail order pharmacy?**

For certain kinds of prescription drugs, you can use the CVS Caremark Mail Order Pharmacy. Generally, the drugs available through mail order are drugs that you take on a regular basis for a chronic or long-

term medical condition. Specialty drugs are not available through mail order.

To use the mail order pharmacy, your doctor must provide a new prescription that allows up to a 90-day supply of each drug. Mail order forms are available on our website at [[https://IFP.healthnetcalifornia.com/Pharmacy\\_Information.html/](https://IFP.healthnetcalifornia.com/Pharmacy_Information.html/)] or you may call us at the telephone number on your Health Net ID card or on the front cover of this book to request a form.

### **How can I save money on my prescription drugs?**

You can save time and money with these simple steps:

- Ask your doctor about generic drugs that may work for you.
- Fill prescriptions at in-network pharmacies.
- Be sure your doctor prescribes drugs on the drug list.
- Fill your maintenance drugs through our mail order pharmacy program.

## *Definitions*

**Brand drug:** Is a drug that is marketed under a proprietary, trademark-protected name. A brand drug is listed in this formulary in all CAPITAL letters.

**Coinsurance:** Is a percentage of the cost of a covered health care benefit that you pay after you have paid the deductible, if a deductible applies to the health care benefit.

**Copayment:** Is a fixed dollar amount that you pay for a covered health care benefit after you have paid the deductible, if a deductible applies to the health care benefit.

**Deductible:** Is the amount you pay for covered health care benefits that are subject to the deductible before your health insurer begins to pay. If the plan has a deductible, it may have either one deductible or separate deductibles for medical benefits and prescription drug benefits. After you pay your deductible, you usually pay only a copayment or coinsurance for covered health care benefits. The plan pay the rest.

**Drug Tier:** Is a group of prescription drugs that correspond to a specified cost sharing tier. The drug tier in which a prescription drug is placed determines your portion of the cost for the drug.

**Exception request:** Is a request for coverage of a non-formulary drug. If you, your designee, or your doctor submits a request for coverage of a non-formulary drug, the plan must cover the non-formulary drug when it is medically necessary for you to take the drug.

**Exigent circumstances:** Is when you are suffering from a medical condition that may seriously jeopardize your life, health, or ability to regain maximum function, or when you are undergoing a current course of treatment using a non-formulary drug.

**Formulary or prescription drug list:** Is the list of drugs that is covered by the plan under the prescription drug benefit of the policy.

**Generic drug:** Is a drug that is the same as its brand name drug equivalent in dosage, strength, effect, how it is taken, quality, safety, and intended use. A generic drug is listed in the drug list in italicized lowercase letters.

**Medically Necessary:** Is health care benefits needed to diagnose, treat, or prevent a medical condition or its symptoms and that meet accepted standards of medicine. Plans usually do not cover health care benefits that are not medically necessary.

**Non-formulary drug:** Is a prescription drug that is not listed on the drug list.

**Out-of-pocket costs:** Are your expenses for health care benefits that aren't reimbursed by the plan. Out-of-pocket costs include deductibles, copayments, and coinsurance for covered health care benefits, plus all costs for health care benefits that are not covered paid by the Member.

**Prescribing provider:** This is a health care provider who can write a prescription for a drug to diagnose, treat, or prevent a medical condition.

**Prescription:** Is an oral, written, or electronic order from a prescribing provider authorizing a prescription drug to be provided to a specific individual.

**Prescription drug:** Is a drug that by law requires a prescription.

**Prior Authorization:** Is a decision by the plan that a health care benefit is medically necessary for you. If a prescription drug is subject to prior authorization in the drug list, your doctor must request approval from the plan to cover the drug before you fill your prescription. The plan must grant a prior authorization request when it is medically necessary for you to take the drug.

**Step therapy:** Is a specific sequence in which prescription drugs for a particular medical condition must be tried. If a drug is subject to step therapy in the drug list, you may have to try one or more other drugs before the plan will cover that drug for your medical condition. If your doctor submits a request for an exception to the step therapy requirement, the plan must grant the request when it is medically necessary for you to take the drug.
