**Please note that the items outlined below will be included only as they relate to your plan choice. Not all services are available in all plan areas.**

The “usual and customary” charge is preset for each procedure. This charge is determined by the complexity of the treatment and the fee most commonly charged for that procedure in a particular geographic area. This is the “maximum allowable” for any procedure, and the benefit will be calculated based on the provider’s submitted fee or the usual and customary amount – whichever is lower.
