

Dental Overview

Plan 8R

The Health Net Dental Plan provides convenient coverage for preventive, basic and major dental care and diagnostic services. These dental services are coordinated by your primary care general dentist. There's no charge for preventive care, and additional services are provided at varying copayments.

In order to receive dental benefits, you must select a Health Net participating dental provider from the Health Net Dental Plan Provider Directory. The directory lists providers participating in the Health Net Dental HMO program.
